
**DEPARTMENT
POLICY**

For income eligible Child Development and Care (CDC) determinations, the income of all program group members must be considered. Some types of income are excluded.

See BEM 500-504 for a detailed description of income types, exclusions, treatment of income including lump sums, and required verifications.

**Computation of
Income**

Use the gross (before deductions) countable, monthly income to determine income eligibility and the family contribution.

Note: When income eligibility is established in the first pay period of an application **and** a change in income is reported, the income change is not required to be verified for approval of subsequent pay periods.

See BEM 505 for details on when a budget is needed, income and benefit month definitions, and the conversion of income to a monthly figure.

**When a Budget is
Required**

Complete a CDC budget at application and redetermination or when the client reports an increase in income that exceeds the highest category in the CDC Income Eligibility Scale for the family size; see RFT 270. This amount will be printed on the DHS-1605, Notice of Case Action, at application and redetermination.

Note: To be initially eligible for the CDC program, a family's gross monthly income must not exceed the Maximum Monthly Gross Income limit by family size associated with the column marked "entry" in the CDC Income Eligibility Scale. See RFT 270.

Bridges determines eligibility for CDC and addresses such questions as:

- Is a separate income determination required?
- What portion of the cost of care will the department pay?
- Is a particular need reason covered?
- What eligibility and need reasons should be entered?

Client Notices

- If a child is aged 13-18, is an age exception appropriate?

Bridges is the primary means of producing CDC client and provider notices for case actions; see BAM 220 for more details.
