AMENDMENT LOG

NOTE: THE AMENDMENT LOG IS ONLY APPLICABLE WHEN SUBMITTING AN AMENDMENT TO A STATE PLAN

SUMMARY OF PROGRAM

Provide the vision and mission of the State E&T program. In addition, describe how your State agency's E&T program meets the purpose of E&T which is to:

- Increase the ability of SNAP participants to obtain regular employment
- Meet State or local workforce needs

In Colorado, the SNAP E&T program, as required by 7 CFR 273.7(f), and the Section 20 Optional Workfare program allowed under the provisions of 7 CFR 273.7(m), operate in tandem as the Employment First program (please refer to the Optional Workfare Program FFY26 State Plan). EF has operated in the Colorado Department of Human Services since the program's inception in 1985. Its vision is to help SNAP recipients in Colorado connect to meaningful employment and succeed in the pursuit of economic well-being. The mission of CDHS is "Together, we empower Coloradans to thrive." CDHS pursues this mission across a breadth of State and federal programming, including oversight of the State's mental health system, child welfare and childcare systems, youth correction system, disability determination, and administration of child support and public assistance programs, among others. CDHS values a people-first approach and model: "We're the people who help people." EF meets both purposes of SNAP E&T through human-centered design, the provision of various program components by county Departments of Human Services (DHS), Colorado Department of Labor and Employment Workforce Regions, and Third Party Partners (TPPs), known throughout this plan as EF Program Operators (EF POs), alignment with Colorado's key industries, and through employment and training partnerships that meet the needs of multiple populations in X number of counties. Human-Centered Design: EF engages advocacy groups, State and national partners, and clients to provide equitable and inclusive services throughout the urban and rural counties in which the program is operated. Also, as a voluntary program model, EF focuses on reverse referral efforts with community partners to ensure all eligible SNAP recipients and applicants are aware of and have access to EF and other E&T programs. EF program operators have also designed programs specific to priority populations such as returning citizens, ABAWDs, low-income individuals, and other populations that are at-risk in the county or local area. Provision of Various E&T Components: EF program operators have the flexibility to offer a variety of E&T components and collaborate with local and State workforce development partners. This occurs at the State and county levels to identify what components are most applicable to help EF clients transition to sustainable employment or acquire the skills necessary to enroll in education or training programs that lead to in-demand careers. Alignment with Colorado Key Industries: The Colorado Workforce Development Council releases an annual Talent Pipeline Report to inform Colorado's workforce development system of growing industries across the State. In addition, the Talent Pipeline Report analyzes and explains labor market information, highlights talent development strategies, and provides data-informed opportunities to enhance the talent pipeline in Colorado. Information from the Talent Pipeline report is incorporated in this State Plan and is used as guidance at the local level to ensure all program operators are offering components within the local area's key industries. Employment & Training Relationships: The EF program funds county DHSs, workforce center regions, and TPPs that generate relationships among community colleges, foundations, employers, etc. The focus of each relationship is to enhance wrap-around services and increase upskilling and new-skilling of EF clients. Furthermore, EF program operators ensure streamlined service delivery for EF clients. For instance, a county DHS may refer clients to a TPP while still retaining responsibility for the assessment, placement, case management, and tracking of work registrants and ABAWDs. Colorado's TPPs then primarily fund the cost of allowable E&T services and are reimbursed by CDHS. However, TPPs may also choose to take on the responsibility for assessment, placement, case management, and tracking of work registrants and ABAWDs while communicating the case management and component details to the county DHS through the CBMS.

Is the State's E&T program administered at the State or county level?

☐ State

☒ County

Describe how counties share information with the State agency.

EF POs are required to submit plans and/or agreements with the program's Statement of Work prior to the beginning of every program year. EF PO plans are used to draft the State E&T plan that is then submitted to FNS. If a change in programming is needed throughout the year, counties and other EF POs follow a state-prescribed process to update their EF PO plan and get approval from the State and, when appropriate, FNS before implementing any program changes.

Describe how the State agency monitors county operations.

Federal regulations, State statutes, and State rules provide the administrative code of operation for all human service programs in the State, including EF. The Colorado statute outlines the county administration of human services programs and the parameters of state supervision and county administration (Title 26, C.R.S.). The State Board of Human Services promulgates the regulations for the EF program; additional guidance is provided through policy, training, and technical assistance. The State E&T team conducts regular check-in meetings, desk-level case file reviews, quarterly monitoring, and annual management evaluations to monitor all EF POs. The oversight process, in particular, includes a review and follow-up action for one or more of the following program areas when necessary: 1. EF internal referral, reverse recruitment, and reverse referral processes 2. EF program design and case management 3. EF performance, data, and trends 4. EF quality assurance processes 5. EF case file reviews and documentation 6. EF PO plan and policy reviews 7. EF allocation, expenditure levels, and fiscal trends 8. In-person or virtual observation of an EF orientation or initial appointment, workfare assignments, and general program facilitation 9. Applicable contracts and supportive payments issuances. The oversight process also includes a thorough examination of all EF POs' expenditures and spending. On a monthly basis, the State EF program team reviews expenditure levels for county human services departments, TPPs, and State administrative costs. EF POs are engaged in conversation and technical assistance regarding their performance on a monthly basis. If an EF PO continues to demonstrate performance concerns in one of the above program areas, a formal management evaluation may be conducted outside of the normal annual management evaluation schedule, and an in-depth review of all program areas will occur. At the conclusion of the management evaluation, the EF PO is given an action plan identifying areas for program strengths, opportunities, and areas of required change. EF POs are given 45 days after the conclusion of the management evaluation to address the areas of required change that the State E&T team verifies.

PROGRAM CHANGES

Summarize changes for the upcoming Federal fiscal year (FY) from the prior FY. Significant changes may include new initiatives, changes in funding or funding sources, policy changes, or significant changes to the number of partners or participants. Significant changes could include those made as a result of management evaluation findings or participation in program improvement initiatives, such as SNAP to Skills. It is not necessary to include changes made as a result of new Federal rulemaking.

For FFY 2026, Colorado is implementing significant improvements to the administration and performance of the EF program, driven by prior-year outcomes and key findings from FNS's 2024 Management Evaluation. 1. New Intermediary Structure: Colorado is launching a new solicitation for SNAP E&T Intermediaries, with services set to begin January 1, 2026. This shift is designed to consolidate administrative responsibilities and data management under specialized intermediaries. These entities will handle case management data entry, streamline administrative tasks, expand participant access to services, and strengthen coordination across local providers. Intermediaries will partner closely with the CDHS to ensure compliance with all federal and state regulations and fiscal standards, resulting in improved program oversight and operational efficiency. 2. Standardized Screening, Referral, and Case Management Procedures: As a direct response to the 2024 Management Evaluation, Colorado is rolling out a standardized, state-prescribed screening and referral process, developed and piloted in collaboration with a county department of human services. This enhanced process establishes clear, consistent steps for identifying eligible clients and referring them to EF services based on state criteria (e.g., age, location, work readiness, and willingness). Statewide implementation of this model ensures equitable access, streamlines referrals, and improves communication between eligibility and EF staff. Additionally, all EF POs will adopt a new standardized case management data entry process. A uniform method for documenting all client interactions in CBMS has been developed and will be implemented across all EF POs. Training on this process will be completed by October 2025, and compliance will be monitored through updated state oversight procedures. 3. Enhanced Performance Monitoring: The State EF team will begin using a monthly program dashboard to track client outcomes, referral rates, and service delivery trends. This tool will support data-driven decision-making and continuous improvement efforts across the EF program. 4. Funding Disbursement Model Lastly, Colorado is making a strategic change to its funding disbursement model for contracted Third-Party Partners in FFY 2026. Historically, the EF Program receives only 75% spending authority of the total FNS allocation at the beginning of the fiscal year. This limitation has created end-of-year challenges in fully awarding funds to partners, who typically receive 50% of their contract amount up front. To address this, Colorado will shift to a 1/3 disbursement model, providing funding in three installments throughout the year. This new approach promotes stronger fiscal stewardship, improves the tracking and management of expenditures, and ensures that all federal funds are fully utilized by the end of the program year. Together, these strategic changes reflect Colorado's ongoing commitment to targeted service delivery, stronger data integrity, and improved compliance and performance across the SNAP E&T program.

Highlight any changes from above that the State agency is making to the E&T program based on the prior year's performance, for instance changes made as a result of E&T outcome and participation data.

Based on analysis of prior year performance and outcome data, Colorado has encouraged Employment and Training Program Operators (EF POs) to narrow their focus by tailoring the components they offer, the populations they serve, and the geographic areas and industries they engage with—limiting their scope to one or two key areas within each category. This shift reflects findings that EF POs with specialized service delivery models, such as those focusing on culinary arts training for returning citizens and Able-Bodied Adults Without Dependents (ABAWDs), produce stronger client outcomes compared to those with broader, less targeted approaches. As a result of these data-driven insights, the State has promoted a more focused approach among EF POs, which has contributed to funding requests remaining stable or slightly decreasing. Additionally, the number of counties offering EF programs has decreased from 64 to 27, reflecting a strategic consolidation to improve program effectiveness and resource allocation. In response to participation and engagement challenges identified in the prior year, CDHS partnered in 2024 with the Food and Nutrition Service's Management and Program Review Office (FNS MPRO) and the Colorado Department of Labor and Employment (CDLE) to launch the Paving Access to Careers and Employment (PACE) pilot program. This initiative is designed to increase program engagement by assessing, supporting, and directing SNAP clients to local EF programs and other appropriate employment and training services. CDLE, as the program intermediary, provides administrative oversight, monitoring, and reporting across 10 workforce regions, offering services both in-person and virtually. The State EF team closely tracked PACE's progress during FFY25 to determine optimal service delivery areas for expansion in the upcoming year. Moving forward, the State and PACE will collaborate with SNAP eligibility teams to ensure appropriate referrals in select counties, with a goal to serve 600 clients this fiscal year. These adjustments reflect a data-informed strategy to improve participant engagement and streamline service delivery.

CONSULTATION AND COORDINATION WITH THE WORKFORCE DEVELOPMENT SYSTEM

State agencies must design the E&T program in consultation with the State workforce development board and operate the E&T program through the statewide workforce development system (7 CFR 273.7(c)(5)). The goal of this section is to explain the relationship between the State agency and other organizations it plans to consult and coordinate with for the provision of services, including organizations in the statewide workforce development system. The statewide workforce development system refers to a network of providers, which may include government and the public sector; community-based organizations and non-profits; employers and industry; occupational training providers; and post-secondary institutions, such as community colleges. Please note the State workforce development board is an entity that establishes Regional strategic plans and sets funding priorities for their area. They are distinct from State workforce agencies.

Consultation

Consultation with the workforce development system generally includes discussions to learn about services provided in the community and how each organization functions and coordinates with others in the community. State agencies can demonstrate they consulted with their State workforce development board by noting the dates of conversations, who they spoke with, what they spoke about, and how they incorporated this information into the design of their E&T program.

Did the State agency consult the State workforce development board?

☒ Yes

☐ No

Describe how the State agency consulted with the State workforce development board in designing its SNAP E&T program. Include the names, dates and outcomes of the consultation.

Date	State Workforce Development Board Name	Title(s) of Person Consulted	Outcome of Consultation
01/25/2025	Colorado Workforce Development Council	Executive Director, Assistant Director - Communications and Collaboration, Sr. Consultant, WIOA and Policy Innovation, Assistant Director, Systems Innovation	Reviewing proposed State legislation and policy initiatives and determining the shared impact across the CWDC and EF.
03/25/2025	Colorado Workforce Development Council	Executive Director, Assistant Director - Communications and Collaboration, Sr. Consultant, WIOA and Policy Innovation,	Reviewing proposed State legislation and policy initiatives and determining the shared impact across the CWDC and EF.

06/09/2025	Colorado Workforce Development Council	Executive Director, Assistant Director - Communications and Collaboration, Sr. Consultant, WIOA and Policy Innovation,	Alignment of the SNAP E&T State Plan with WIOA strategic goals to ensure a seamless and complementary service delivery system.
------------	--	--	--

12/30/2025	Colorado Workforce Development Council	Executive Director, Assistant Director - Communications and Collaboration, Sr. Consultant, WIOA and Policy Innovation, Assistant Director, Systems Innovation	The Colorado Department of Human Services (CDHS) maintains a strong, ongoing partnership with the Colorado Workforce Development Council (CWDC), engaging in regular consultation at least quarterly throughout the year to collaboratively design and improve the SNAP Employment and Training (E&T) program. These meetings, held on [insert specific dates if available], provide a forum for coordination and alignment between SNAP E&T and the Workforce Innovation and Opportunity Act (WIOA) programs. Key outcomes of this collaboration include alignment of the SNAP E&T State Plan with WIOA strategic goals to ensure a seamless and complementary service delivery system. Together, CDHS and CWDC develop annual reporting goals to measure program performance and drive continuous improvement. The partnership also fosters initiatives aimed at expanding the populations and geographic areas served by SNAP E&T, helping to target services to underserved communities. Additionally, CDHS and the CWDC collaborate on legislative initiatives, jointly reviewing and producing proposals or responding to new State legislation that impacts workforce and SNAP E&T programs. This coordination ensures that legislative changes are addressed collectively, maximizing program effectiveness and resource use. Through this sustained consultation and partnership, CDHS and CWDC work closely to enhance service delivery, increase participant outcomes, and support Colorado's broader workforce development goals.
------------	--	---	--

Coordination

Coordination with the workforce development system consists of efforts to partner with workforce providers to directly serve SNAP E&T participants or to align the flow or types of services offered across programs.

Describe any special State initiatives (i.e. Governor-initiated or through State legislation) that include SNAP E&T. Describe any efforts taken by the State agency to coordinate these programs, services, partners, and/or activities with the State's E&T program.

At this time, the EF program does not have any special state initiatives related to SNAP E&T initiated by the Governor or enacted through state legislation for FFY 2026. The State agency continues to monitor potential opportunities for alignment and coordination with other statewide programs, but no formal initiatives are currently in place.

Describe the extent to which the State agency is carrying out SNAP E&T programs in coordination with title I programs under the Workforce Innovation and Opportunity Act (WIOA).

The EF program is administered in coordination with Title I of WIOA in the following ways: Under WIOA, EF is identified as a partner program in the WIOA State Plan that is submitted to the Secretary of the USDOL, which outlines a four-year strategy for the State's workforce development system. The State plan was approved by the USDOL in the summer of 2024. Colorado has used the WIOA State Plan to outline a comprehensive and integrated approach, including career pathways and sector strategies, for addressing the needs of businesses and workers. Colorado's WIOA Combined State Plan is available at: <https://www.colorado.gov/pacific/cwdc/colorado-state-plan>. Various State agencies in Colorado that support economic development, either through engagement with job seekers, industry, or both, are all aligned under the WIOA plan, furthering collaborative efforts across agencies. EF recognizes that SNAP participants are a vital component of Colorado's talent pipeline and are critical in filling middle-skills jobs in the marketplace. The EF program supports this goal through connecting program clients with education, training, and credentialing opportunities, some of which elicit enrollment through WIOA. These opportunities equip clients with the credentials to access career pathways in the labor market. In addition, Colorado's EF program collaborates with WIOA providers to prioritize industry-led training and credentialing across key industries, including: 1. Healthcare and Social Assistance 2. Administrative Support and Waste Management Remediation Services 3. Professional, Scientific, and Technical Services 4. Retail Trade 5. Manufacturing 6. Accommodation and Food Service 7. Educational Services 8. Finance and Insurance 9. Information Technology 10. Construction 11. Wholesale Trade

Is SNAP E&T included as a partner in the State's WIOA Combined Plan?

- ☐ Yes
☒ No

Describe how the State agency is coordinating with TANF/GA programs, services, partners, and/or activities. Describe any TANF/GA special initiatives targeting specific populations and any actions taken to coordinate with these efforts.

CDHS coordinates closely between the EF program and the Temporary Assistance for Needy Families (TANF) program, known as Colorado Works, to ensure streamlined services for work-eligible clients. All TANF clients receiving SNAP benefits are eligible to participate in EF regardless of their involvement in TANF's Work Development Program (WDP). Those co-enrolled in both EF and TANF WDP maintain separate plans for each program and may receive case management services from one or both programs. This dual enrollment allows TANF clients to access EF's job retention services upon securing employment, enhancing support across programs. Additionally, TANF clients who volunteer can participate in EF workfare activities, which provide initial site placements that serve as opportunities to assess and build job readiness skills. This integrated approach supports TANF clients in gaining meaningful work experience while progressing toward long-term employment. Coordination between TANF and EF is further strengthened by their administration under the same division within CDHS, the Division of Economic and Workforce Support (DEWS). This structure enables staff cross-training and aligns public assistance work programs at the county level, fostering administrative collaboration to meet shared goals and serve overlapping populations effectively. Although TANF and EF differ in funding streams, mandates, and program requirements, Colorado leverages their commonalities by sharing workforce development expertise and employment resources to maximize participant outcomes. While no specific TANF/General Assistance (GA) special initiatives are detailed here, Colorado's integrated service delivery model, including co-enrollment and workfare options, reflects an intentional coordination strategy to serve TANF populations comprehensively through SNAP E&T and related employment programs.

Describe how the State agency is coordinating its SNAP E&T program with any other Federal or State employment program (e.g. HUD, child support, re-entry, refugee services).

The CDHS coordinates its EF program closely with a variety of Federal and State employment programs to provide comprehensive, wrap-around services to clients. EF refers and/or co-enrolls clients into complementary programs as appropriate to meet their individual employment needs and goals. These programs include: Veteran Programs: Operated by the U.S. Department of Labor, these programs offer specialized job search support for veterans and their spouses, including individualized career coaching and access to resources through local workforce centers. Vocational Rehabilitation: This program provides services tailored to individuals with disabilities, such as case management, job skills training, supportive payments, pre-employment transition services, and physical and mental restoration services to enhance employability. ReHire Colorado: Clients facing employment barriers are placed in transitional employment opportunities designed to prepare them for sustainable, long-term employment. Supportive payments are also provided to assist with employment-related needs. To strengthen collaboration and improve client outcomes, EF Program Operators and the State E&T team maintain ongoing partnerships with these employment programs. They hold monthly technical assistance meetings, quarterly forums, and ad hoc discussions to develop coordinated strategies and referral protocols. This structured coordination ensures seamless client referrals, promotes co-enrollment, and leverages shared expertise across programs.

CONSULTATION WITH INDIAN TRIBAL ORGANIZATIONS (ITOs)

State agencies are required to consult with Tribes about the SNAP State Plan of Operations, which includes the E&T State Plan, per 7 CFR 272.2(b) and 272.2(e)(7). The consultations must pertain to the unique needs of Tribal members. State agencies are required to document the availability of E&T programs for Tribal members living on reservations in accordance with 7 CFR 273.7(c)(6)(xiii). The goal of this section is to describe how the State agency consulted with Indian Tribal Organizations (ITOs), describe the results of the consultation, and document the availability of E&T programs for Tribal members living on reservations.

Did the State agency consult with ITOs in the State?

- ☒ Yes
- ☐ Yes, but not all ITOs
- ☐ No
- ☐ There are no ITOs in my State

List the ITOs consulted and describe the outcomes of the consultation(s). Provide specific examples of how the State agency incorporated feedback from ITOs into the design of the E&T program (e.g. unique supportive service, new component, in-demand occupation). Include the title of the person you consulted and the date.

Date	Name of ITO	Title(s) of Person Consulted	Outcome of Consultation
06/24/2025	Ute Mountain Ute Tribe (UMUT)	CDHS Tribal Affairs Specialist	The State Agency consulted on various programs, including SNAP, during the annual tribal consultation. It was noted that the voluntary EF program is not currently administered in the counties encompassing the Ute Mountain Ute Tribe. During the consultation, no feedback or concerns were expressed by Tribal representatives regarding the design or implementation of the EF program.
06/25/2025	Southern Ute Indian Tribe (SUIT)	CDHS Tribal Affairs Specialist	The State Agency consulted on various programs, including SNAP, during the annual tribal consultation. It was noted that the voluntary EF program is not currently administered in the counties encompassing the Southern Ute Indian Tribe. During the consultation, tribal representatives did not express feedback or concerns regarding the design or implementation of the EF program.

Will the State agency be seeking enhanced reimbursement for E&T services (75%) for ITO members who are residents of reservations, either on or off the reservation?

☐ Yes

☒ No

UTILIZATION OF STATE OPTIONS

State agencies have the flexibility to implement policy options to adapt and meet the unique needs of State populations. Check which options the State agency will implement.

Does the State agency offer an E&T program statewide?

- ☐ Yes
☒ No

Indicate the type of E&T program the State agency operates.

- ☐ Mandatory per 7 CFR 273.7(e)
☒ Voluntary per 7 CFR 273.7(e)(5)(i)
☐ Combination of mandatory and voluntary

Indicate which counties offer an E&T program.

- | | | |
|---|---|---|
| ☒ Adams County | ☒ Fremont County | ☒ Morgan County |
| ☒ Alamosa County | ☒ Garfield County | ☒ Otero County |
| ☒ Arapahoe County | ☐ Gilpin County | ☐ Ouray County |
| ☐ Archuleta County | ☐ Grand County | ☐ Park County |
| ☐ Baca County | ☐ Gunnison County | ☐ Phillips County |
| ☐ Bent County | ☐ Hinsdale County | ☐ Pitkin County |
| ☒ Boulder County | ☒ Huerfano County | ☒ Prowers County |
| ☒ Broomfield County | ☐ Jackson County | ☒ Pueblo County |
| ☒ Chaffee County | ☒ Jefferson County | ☐ Rio Blanco County |
| ☐ Cheyenne County | ☐ Kiowa County | ☒ Rio Grande County |
| ☐ Clear Creek County | ☐ Kit Carson County | ☐ Routt County |
| ☒ Conejos County | ☒ La Plata County | ☐ Saguache County |
| ☒ Costilla County | ☐ Lake County | ☐ San Juan County |
| ☐ Crowley County | ☒ Larimer County | ☐ San Miguel County |
| ☐ Custer County | ☒ Las Animas County | ☐ Sedgwick County |
| ☐ Delta County | ☐ Lincoln County | ☐ Summit County |
| ☒ Denver County | ☒ Logan County | ☐ Teller County |
| ☐ Dolores County | ☒ Mesa County | ☐ Washington County |
| ☒ Douglas County | ☐ Mineral County | ☒ Weld County |
| ☐ Eagle County | ☐ Moffat County | ☐ Yuma County |
| ☒ El Paso County | ☐ Montezuma County | |
| ☐ Elbert County | ☒ Montrose County | |

Does the State agency serve the following populations? Select all that apply.

- ☒ Applicants per 7 CFR 273.7(e)(2)
- ☐ Exempt members of zero benefit households that volunteer for SNAP E&T per 7 CFR 273.10(e)(2)(iii)(B)(7)
- ☒ Categorically eligible households per 7 CFR 273.2(j)

Does the State agency enable ABAWDs to regain SNAP eligibility through E&T and verify that the ABAWD will meet the work requirement within 30 days?

- ☒ Yes
- ☐ No

CHARACTERISTICS OF INDIVIDUALS SERVED BY E&T

State agencies are required to include information about the categories and types of individuals they plan to exempt from mandatory E&T participation (7 CFR 273.7 (c)(6)(iv)), as well as the characteristics of the population they plan to place in E&T (7 CFR 273.7 (c)(6)(v)).

What are the characteristics of the population the State agency intends to serve in E&T (e.g. target population)? This question applies to both mandatory and voluntary participants.

- ☐ ABAWDs
- ☐ Homeless
- ☐ Veterans
- ☐ Students
- ☐ Single parents
- ☐ Returning citizens (aka: ex-offenders)
- ☐ Underemployed
- ☐ Those that reside in rural areas
- ☐ English Language Learners
- ☐ Individuals who need a HSD or GED
- ☐ Individuals who need a credential
- ☐ Individuals who need a new skill
- ☐ Individuals with disabilities

Estimated Participant Levels

Project participation in E&T for the upcoming Federal fiscal year. In determining the estimated participation, it is important to be as accurate as possible. As appropriate, projections should be based upon actual figures from the current Federal fiscal year.

Anticipated number of work registrants	134,839
--	---------

State Exemptions

List State exemptions from E&T and the participation, such as individuals to be exempted under each category.

EXEMPTION	TOTAL INDIVIDUALS
All work registrants (the State is operating a voluntary program)	134,839

Total estimated number of work registrants exempt from mandatory E&T	134,839
Percent of all work registrants exempt from E&T	100.00%

ABAWDs

Anticipated number of ABAWDs in the State	75,123
Anticipated number of ABAWDs in waived areas of the State	0
Anticipated number of ABAWDs to be exempted under the State's ABAWD discretionary exemption allowance	9,723
Anticipated number of at-risk ABAWDs in the State	65,400

E&T Participants

Anticipated number of mandatory E&T participants	0
Anticipated number of voluntary E&T participants	11,549
Total anticipated number of E&T participants	11,549
Anticipated number of ABAWDs to be served in E&T	10,000

How frequently will the State plan to re-evaluate these exemptions from mandatory E&T?

- ☐ Annually
☐ Bi-annually
☒ Other

Explain how frequently the State plans to re-evaluate these exemptions from mandatory E&T.

Colorado will not plan to re-evaluate exemptions because EF is a voluntary program.

ORGANIZATIONAL RELATIONSHIPS

State agencies are required to include information on the organizational relationship between the units responsible for certification and the units operating the E&T components, including units of the statewide workforce development system, if available. For the purposes of the questions below, E&T providers are considered to include units of the statewide workforce development system. FNS is specifically interested in ensuring that the lines of communication are efficient and that, if applicable, noncompliance with mandatory E&T is reported to the certification unit within 10 working days after the noncompliance occurs, per 7 CFR 273.7(c)(4). State agencies must also include information on the relationship between the State agency and other organizations it plans to coordinate with for the provision of services.

The following questions are about how the E&T program is structured in your State agency.

Indicate which division within the SNAP State agency is responsible for the E&T program. (i.e. establishes E&T policy, contracts for E&T services, monitors providers). For example, explain if the E&T program unit is separate from the SNAP certification unit, and if there are separate E&T units at the county level.

Colorado's SNAP and SNAP E&T (EF) programs are both state-supervised and county-administered. Supervision occurs within the same CDHS Office, the Office of Economic Security. However, SNAP policy, contracts, and monitoring are conducted through the Food and Energy Assistance Division, and SNAP E&T policy, contracts, and monitoring are conducted through DEWS. DEWS is responsible for EF program decisions. County DHS, who administer EF, determines (based on funding, organizational structure, and needs) whether or not the EF program unit is separate from the SNAP certification unit. County DHSs are required to demonstrate effective referral processes within their county plan and throughout the year, even if the EF program is separate from the SNAP certification unit within the county.

How does the E&T unit coordinate and communicate on an ongoing basis with the units responsible for certification policy?

At the State level, the State E&T team (part of DEWS) attends biweekly meetings with the State SNAP team (part of FEAD). DEWS and FEAD develop cross-division memos, coordinate to develop training, and partner to interpret FNS guidance to inform counties regarding SNAP E&T information, updates, and other cross-division efforts. The State E&T team and State SNAP team partner to develop ongoing communication and training, including an operation memo that defines the roles and responsibilities for coordinating and communicating on an ongoing basis between county EF staff, TPPs, workforce regions, and county SNAP eligibility workers.

Describe the State's relationships and communication with intermediaries or E&T providers.

The State maintains regular, collaborative relationships with EF POs and intermediaries to ensure alignment with program goals, consistent service delivery, and continuous quality improvement. Communication occurs through multiple structured and ad hoc channels: 1. Monthly facilitated partner workgroups and technical assistance meetings provide a forum for information sharing, policy updates, collaborative problem-solving, and peer-to-peer learning. 2. The Division newsletter delivers program updates, policy guidance, training opportunities, and reminders to all partners monthly. 3. Ad hoc communications (via email, phone calls, or virtual meetings) are used as needed to address emerging issues, provide technical clarification, or respond to urgent partner needs. 4. During the Program Operator Plan development process (typically March–July), the State actively engages EF POs and intermediaries to ensure their input is incorporated into planning and implementation strategies. Feedback is solicited through direct consultations, workgroup discussions, and written submissions. Overall, the State prioritizes open and ongoing communication with EF POs to build trust, ensure accountability, and promote program effectiveness.

Describe how the State agency shares new policies, procedures, or other information with the intermediary or other E&T provider.

The State agency shares new policies, procedures, and other program information with all EF POs and intermediaries through multiple communication channels, including: 1. Monthly DEWS newsletters 2. Monthly EF PO workgroup meetings 3. The CDHS memo series 4. Ad-hoc technical assistance calls and emails 5. The EF website 6. Monthly Third-Party Partner (TPP) collaborative calls All EF POs have access to current program materials through the EF PO Handbook and website. These resources include desk aids, Q&A documents, and guidance issued by USDA FNS. The State E&T team provides formal training to all EF POs at the start of each federal fiscal year and offers additional training throughout the year. In collaboration with the Food and Energy Assistance Division (FEAD), the State regularly develops and disseminates updated guidance to ensure consistency across EF PO and SNAP eligibility teams and to ensure that all policy and procedural changes are clearly communicated to all stakeholders.

Describe how the State agency, intermediaries, and E&T providers share participant data and information. Include the names of any MIS systems (or other modes of communication) used.

Colorado designed EF so all EF POs have access to one system, CBMS. This allows for client information to be shared between the State E&T team, county SNAP eligibility, and all EF POs who provide case management services and components to EF clients.

If the State uses a MIS system, describe the E&T related data that is tracked and stored in those systems (e.g. referrals, noncompliance with program requirements, provider determination, etc.), and whether the system(s) interact with each other.

CBMS is the State's system of record for CDHS and all EF POs. CBMS tracks and stores all E&T-related data, including: 1. Referrals and provider determinations (PDs) 2. Exemptions and noncompliance with program requirements 3. Self-reported demographic information 4. Client participation hours and component assignments 5. Case notes and assessments 6. Individualized Service Plans (ISPs) 7. Employment and training outcomes 8. Supportive services and payments 9. Referrals and other relevant case details All EF POs enter data directly into CBMS, which ensures consistency and supports coordination with other CDHS-administered programs. CBMS interacts with eligibility modules to streamline case management and allow for integrated tracking of client progress and program compliance.

Describe the State agency's process for monitoring E&T providers' program and fiscal operations. Include plans for direct monitoring such as visits, as well as indirect monitoring such as reviewing program data, financial invoices, etc.

The State E&T Team uses an oversight plan to monitor the EF POs program and fiscal operations. The oversight plan process is critical in identifying general best practices, program performance, and areas of improvement through quarterly desk-level reviews and follow up meetings as necessary. These meetings and reviews are for one or more of the following program areas: 1. EF internal referral and reverse recruitment and referral processes 2. EF program design and case management 3. EF performance, data, and trends 4. EF quality assurance processes 5. EF case file reviews and documentation 6. EF PO plan and policy reviews 7. EF allocation, expenditure levels, and fiscal trends 8. In person or virtual observation of an EF orientation or initial appointment, workfare assignments, and general program facilitation 9. Applicable contract requirements 10. Supportive payment issuances 11. A thorough examination of expenditures and spending of an EF PO The oversight plan requires a quarterly case file review, which includes the case management and program components listed above for all EF POs. An EF PO who rates below expectations is required to participate in a management evaluation to evaluate how the EF POs are assisting SNAP clients in gaining skills, training, work, or experience that will increase their ability to obtain long-term, sustainable employment. The State E&T team reviews each assessment with the EF PO monthly, and all assessments and actions taken because of the assessment are archived. The State E&T will conduct at least 12 management evaluations this year, utilizing recommendations from internal audits. In addition to the oversight process listed above, the State E&T team reviews a series of program engagement and case management reports with EF POs. Although there is a prescribed oversight process with monthly and quarterly checkpoints, areas of concern are addressed with EF POs as soon as they arise.

How frequently does the State agency monitor E&T providers' program and fiscal operations?

- ☐ Daily
- ☐ Weekly
- ☒ Monthly
- ☐ Quarterly
- ☐ Bi-Annually
- ☐ Annually
- ☐ Other

Describe how the State agency evaluates the performance of providers in achieving the purpose of E&T (assisting members of SNAP households in gaining skills, training, work, or experience that will increase their ability to obtain regular employment and meets State or local workforce needs).

The State E&T team and EF POs adhere to the oversight plan to evaluate performance. Case files are pulled quarterly to ensure that clients are receiving the proper case management services. Cases are evaluated for the following: 1. Meaningful case management activities between an EF PO and the client 2. A comprehensive employability assessment 3. A complete ISP that should be updated every 120 days 4. Demonstration that a client's employability is progressing 5. Coordination with and referrals to other E&T services 6. Enrollment in an appropriate E&T component 7. Supportive payments are offered and provided 8. Evidence that training is being received when applicable 9. Progression of a client's skill attainment 10. Employment outcomes, and if appropriate, documentation that services were provided to assist clients with obtaining sustainable employment 11. Data entry requirements in CBMS are met Monthly meetings between the State E&T team and EF POs include discussions and technical assistance about EF PO performance. The State E&T team references program engagement and case management reports to determine an EF PO's performance. In addition, the State E&T team will track state-specific outcome measures and those unique to each EF PO regularly throughout the year to identify best practices and areas for improvement. The team also provides training and guidance for all areas of case management throughout the year.

How frequently does the State agency evaluate the performance of providers in achieving the purpose of E&T?

- ☐ Daily
- ☐ Weekly
- ☒ Monthly
- ☐ Quarterly
- ☐ Bi-Annually
- ☐ Annually
- ☐ Other

SCREENING FOR WORK REGISTRATION

State agency eligibility staff must screen for federal exemptions from work registration, per 7 CFR 273.7(a).

Describe how the State agency screens applicants to determine if they are work registrants.

During the application process, county eligibility workers screen individuals for work registrant status and exemptions by reviewing the application materials, existing case file information, and asking pointed questions during the interview. This occurs at every recertification and when processing changes that impact an individual's work status. Eligible workers then enter work registrant status and any applicable exemptions on the Work Requirements screen in CBMS. If there is incomplete or unclear information, clarification is requested to determine work registrant status and any potential exemptions.

How does the State agency work register non-exempt individuals?

Individuals are registered for work by signing the SNAP application and recertification. Once eligibility workers screen for work registrant exemptions, they data enter those exemptions (or the lack thereof) on the Work Requirements page in CBMS. Individuals with the status of "No Exemption" under the work registrant section are coded as non-exempt work registrants in CBMS.

At what point in the certification process does the State agency provide the written explanation of the applicable work requirements? Select all that apply.

- ☐ Point of Intake
- ☒ Point of Certification
- ☒ Reported change in the work registrant status of household members
- ☒ Point of Recertification
- ☐ State does not provide written explanation

At what point in the certification process does the State agency provide the oral explanation of the applicable work requirements? Select all that apply.

- ☐ Point of Intake
- ☒ Point of Certification
- ☒ Reported change in the work registrant status of household members
- ☒ Point of Recertification
- ☐ State does not provide oral explanation

SCREENING FOR REFERRAL TO E&T

The State agency must screen each work registrant to determine if it is appropriate, based on State-specific criteria, to refer them to the E&T program per 7 CFR 273.7 (c)(2). State agencies may operate program components in which individuals elect to participate, per 7 CFR 273.7(e)(4).

List the State-specific criteria eligibility workers use to screen individuals to determine if it is appropriate to refer them to the State's SNAP E&T program.

The specific state criteria for referral to E&T in Colorado are: Is the individual within the appropriate age range? 16 or 17 years and the head of household, or 18-64 years old? Is there an available E&T program operating in the county of residence? Is the individual work-ready and willing to participate in an E&T program? All SNAP participants who meet the age requirements and reside in a county where E&T programs are in operation are eligible to participate in the Colorado E&T program.

What information does the State provide to a SNAP recipient to explain SNAP E&T participation criteria?

During the SNAP application and recertification process, eligibility workers explain the EF program, including who qualifies to participate based on age, county of residence, and readiness to engage in employment or training. Clients are informed that the program is voluntary and are given details on the services available, such as case management, job search support, and participant reimbursements. If referred, clients receive the name and contact information of the EF provider and may also be given written materials or flyers with additional program details.

How does the State document that the information has been provided?

Eligibility workers document these conversations and outcomes in CBMS, including on the Work Requirements screen and in case comments.

What is the State's model for screening and referral to SNAP E&T? Select all that apply.

- ☒ Reverse Referral
- ☒ Direct Referral

When does screening for referral to E&T occur? Select all that apply.

- ☒ Initial Certification
- ☒ Recertification
- ☒ Reported change in the work registrant status of households
- ☐ Other

Describe the process for screening for direct referral to E&T, including the staff involved.

During the application and recertification interview, eligibility workers engage in a comprehensive conversation with clients about SNAP work requirements and the SNAP E&T programs available in the county of residence. Eligibility workers explain the SNAP work requirements and the impacts to eligibility, how the E&T program can help individuals maintain eligibility for SNAP, as well as provide resources to aid in securing and maintaining employment as well as career development. Eligibility staff will then assess the client's ability and interest in participating. If the client meets the conditions of the state criteria for screening, eligibility workers will then send the referral to the most appropriate E&T provider in the county. The screening and referral process is led entirely by county eligibility workers in collaboration with EF POs and supported by state-provided tools and guidance.

When does the screening for a reverse referral request occur?

The screening for a reverse referral request occurs after an EF PO identifies a SNAP client who was not originally referred through the eligibility process but may benefit from or is interested in E&T services.

Describe the process for screening during the reverse referral request process, including the staff involved.

EF POs notify the client over the phone, in person, or in writing that a screening needs to be conducted by an eligibility worker. The eligibility worker will then follow the screening process and refer to the State-specific criteria.

Are participants informed about participant reimbursements before the individual is referred to E&T by eligibility staff?

☒ Yes

☐ No

How are participants informed about participant reimbursements?

During the screening and referral process, eligibility workers inform clients of participant reimbursements (also known as supportive payments in Colorado) as part of their explanation of the EF program. Once referred, clients receive additional information and are offered participant reimbursements during their initial meeting and ongoing case management appointments with their EF PO worker. Clients can receive transportation assistance and other supportive payments to attach to the program before their first appointment with EF if this need is expressed during the eligibility screening during the initial application, recertification, status changes, or upon request. State E&T staff and county EF POs provide eligibility workers with a list of E&T supportive payments available in their county. This allows eligibility staff to provide information to clients on what supportive payments are available.

REFERRAL TO E&T

In accordance with 7 CFR 273.7(c)(2), in order to participate in SNAP E&T, the State agency must make the referral. The referral method may vary from participant to participant.

What information does the State provide to E&T participants when they are referred? Select all that apply.

- ☒ Information about accessing E&T services
- ☒ Case Management
- ☐ Dates
- ☒ Contact information
- ☐ Other

How is the referral communicated? Select all that apply.

- ☒ Orally
- ☒ Electronic Forms
- ☒ Physical Forms
- ☒ Emails
- ☐ Text Messages
- ☐ Other

If the State receives a reverse referral request from an E&T provider, what steps does the State take?

EF POs follow internal business processes to notify the SNAP client over the phone, in person, or in writing that a screening needs to be conducted by a county SNAP eligibility worker. Per State policy, the EF PO has 10 business days to refer the SNAP client to a county DHS eligibility team to be screened. The SNAP eligibility worker will then follow the screening and referral process outlined in this State plan.

How does the State communicate to the SNAP participant that they are in SNAP E&T? Select all that apply.

- ☒ Orally
- ☒ Electronic Forms
- ☒ Physical Forms
- ☒ Emails
- ☐ Text Messages
- ☐ Other

How does the State communicate to the SNAP participant about their rights to receive participant reimbursements? Select all that apply.

- ☒ Orally
- ☒ Electronic Forms
- ☒ Physical Forms
- ☒ Emails
- ☐ Text Messages
- ☐ Other

How is information about the referral communicated to E&T providers, as applicable?

SNAP eligibility workers communicate with EF POs when referrals are made through email, phone calls, or in-person meetings. And EF POs also communicate with SNAP eligibility workers when referrals result in successful program enrollment through email, phone calls, or in-person meetings. This communication method depends on the county DHS's and EF PO's business processes. The eligibility worker must make referrals to an EF program operator within 10 business days, and EF POs must take action on the referral within five business days (taking action includes contacting the SNAP recipient to schedule a one-on-one appointment or orientation).

How is information about the referral communicated within the State agency?

A client's referral status is updated in CBMS in real-time by the EF PO. When an eligibility worker refers a client to EF, the EF PO updates the client's EF plan status to "EF referred". When an EF PO accepts the referral and the client successfully enrolls in EF, the EF PO updates the client's plan in CBMS to "EF Enrolled." Clients who do not engage in EF or who decline program services are also documented in CBMS with the "EF declined program services" status.

After referral, what additional steps does the E&T participant take to access the program? Select all that apply.

- ☒ Assessment
- ☒ Orientation
- ☒ Meet with case manager
- ☐ Other

Is orientation mandatory?

- ☒ Yes
- ☐ No

Who runs the orientation? Select all that apply.

- ☐ State Agency
- ☐ Intermediary
- ☒ E&T Provider
- ☒ County or Local Office

How is the orientation conducted? Select all that apply.

- ☒ In Person
- ☒ Virtually
- ☒ Online
- ☒ Self-Paced
- ☐ Other

What happens during the orientation?

Based on the EF PO's business model, orientation is held in a group setting or 1:1 with the client at an initial appointment. SNAP clients are provided with more specific information regarding what supportive services, employment, and training services are available to them. Clients are also informed of program expectations (monthly check-ins, how to engage and complete program services, etc.). Currently, orientations and appointments are held in person, over the phone, and/or virtually, depending upon the EF PO's business model.

ASSESSMENT

Does the State require or provide an assessment?

- ☒ Yes
☐ No

Who conducts the assessment? Select all that apply.

- ☐ State Agency
☒ E&T Provider
☐ Self-Assessment
☐ Intermediary
☒ Local Office
☐ Other

When are participants assessed?

The comprehensive employability assessment is a critical step in the EF case management process and is completed by the EF PO during orientation or the initial appointment. Assessments are completed in person and/or virtually between the client and the EF PO by completing either the State's EF Comprehensive Employability Assessment and the Transferable Skills Checklist or an EF PO's assessment tool that is approved by the State EF program team. Assessments help determine the appropriate E&T component (commonly referred to as a program service) the client can engage in, as well as assess for barriers to employment. Areas that are assessed include employment history, education, and the client's short- and long-term goals. Assessments must be conducted at least annually; however, EF POs assess clients at least monthly for barriers to employment and the need for supportive payments or updates to the client's individual employment plan.

Describe the assessment. List the tools used in the assessment.

Both the comprehensive assessment and transferable skills checklist are used to assess different areas such as communication skills, planning skills, interpersonal skills, critical thinking skills, academic skills, and self-management skills. Results of an assessment and the supportive payments that are provided (from the EF program or a partner employment and training program) to meet a client's needs are documented in CBMS. The client is provided with the results of their assessment as well.

Does the assessment result in the completion of an individual employment plan?

- ☒ Yes
☐ No

How are assessment results shared with State agency staff? Select all that apply.

- ☐ Orally
- ☐ Electronic Forms
- ☐ Physical Forms
- ☒ MIS System
- ☐ Email
- ☐ Other
- ☒ Assessment is not shared with State agency staff

Explain why assessment results are not shared with State agency staff.

In a state-supervised, county-administered state, state agency staff do not provide direct case management services to clients. Because of this structural distinction, assessment results are not shared with state staff. Instead, assessment results are shared with EF PO case managers who are directly responsible for case management and service delivery. However, assessment results are recorded in CBMS case comments, and State agency staff have access to the assessment results at any time and review the assessment results during the state oversight process.

How are assessment results shared with E&T providers? Select all that apply.

- ☒ Orally
- ☒ Electronic Forms
- ☒ Physical Forms
- ☒ MIS System
- ☒ Email
- ☐ Other
- ☐ Assessment is not shared with E&T providers

How are assessment results shared with E&T participants? Select all that apply.

- ☒ Orally
- ☒ Electronic Forms
- ☒ Physical Forms
- ☒ Email
- ☐ Other
- ☐ Assessment is not shared with E&T participants

Are participants reassessed?

- ☒ Yes
- ☐ No

When are participants reassessed?

Assessments must be conducted at least annually; however, EF POs reassess clients at least monthly for barriers to employment and the need for supportive payments or updates to the individual employment plan.

How are participants reassessed?

Clients are reassessed in accordance with the established assessment process followed by EF POs. This process ensures that any changes in a client's circumstances, skills, or employment readiness are accurately reflected and used to update their plan accordingly.

CONCILIATION PROCESS

In accordance with 7 CFR 273.7(c)(3), State agencies have the option to offer a conciliation period to noncompliant E&T participants. The conciliation period provides mandatory E&T participants with an opportunity to comply before the State agency sends a notice of adverse action. The conciliation process is not a substitute for the determination of good cause when a client fails to comply.

Does the State agency offer a conciliation process?

☐ Yes

☒ No

CASE MANAGEMENT SERVICES

The State E&T program must provide case management services to all E&T participants. In accordance with 7 CFR 273.7(c)(6)(ii), State agencies are required to include specific information about the provision of case management services in the E&T State plan.

What types of E&T case management services will be offered to the participant? Select all that apply.

- ☒ Comprehensive Intake Assessments
- ☒ Individualized Service Plans
- ☒ Progress Monitoring
- ☒ Coordination with Service Providers
- ☒ Reassessment
- ☐ Other

Who delivers the case management services in your State? Select all that apply.

- ☒ Email
- ☐ Other

Describe how E&T case managers coordinate with other staff and services. Coordination can involve tracking E&T participation, sharing information that may be relevant to participation in E&T (e.g. information related to good cause or a work exemption), and referral to additional services.

QUESTION	RESPONSE FIELD
How do E&T case managers coordinate with: SNAP eligibility staff	EF POs share any information regarding potential work exemptions, good cause, and other case updates with county SNAP eligibility through the business process established by the county. Email correspondence and virtual/in-person meetings are the most common forms of communication/coordination.
How do E&T case managers coordinate with: State E&T staff	EF POs request technical assistance, staff cases, and submit reports and outcomes to State E&T staff. Email correspondence and virtual/in-person meetings are the most common forms of communication/coordination.
How do E&T case managers coordinate with: Other E&T providers	EF POs develop local-level collaborative meeting schedules, referral processes, provider determination communications, and co-enrollment strategies with other E&T providers. Email correspondence and virtual/in-person meetings are the most common forms of communication/coordination.
How do E&T case managers coordinate with: Community resources	EF POs develop local-level collaborative meeting schedules, referral processes, and co-enrollment strategies with community resources. Email correspondence and virtual/in-person meetings are the most common forms of communication/coordination.

How does the State agency ensure E&T participants receive targeted case management services through an efficient administrative process, per 7 CFR 273.7(c)(6)(ii)?

The State ensures all E&T participants receive targeted case management services through a combination of policy requirements, system tracking, and oversight. Each EF PO is required to describe their local case management approach in their annual Program Operator Plan, including how they provide individualized, client-centered case management and service delivery. All EF POs use the comprehensive employability assessment and an IEP to determine the services each participant needs to successfully engage in E&T components. These tools guide decisions about appropriate referrals, training, supportive services, and employment goals. The IEP must be updated at least every 120 days to ensure services remain relevant. At the administrative level, the State E&T team monitors compliance through data reports that track IEP engagement, component enrollment, and the issuance of supportive service payments. These reports allow the State to identify whether participants are receiving case management services at the required frequency and whether services are aligned with their assigned components. This process ensures targeted case management is consistently delivered across the state.

How do your offered case management services support the participant in the E&T program and provide activities and resources that help the participant achieve program goals?

Case management services are designed to be individualized and responsive to each client's goals and barriers. EF POs conduct a comprehensive employability assessment and use that information to guide the development of an IEP, which captures the participant's background, short- and long-term employment goals, responsibilities, referrals to resources, and action steps needed to reach their goals. The IEP and assessment together help determine the most appropriate services for each participant. For example, participants struggling to find employment during a supervised job search may be assessed for training opportunities. Individuals with justice involvement may receive support in obtaining background checks or referrals to reentry services. Participants enrolled in vocational training may only need monthly email check-ins, while others may require more frequent, face-to-face interaction. Supportive services, including participant reimbursements, are regularly discussed and offered during case management appointments to remove participation barriers. These tailored supports help ensure participants remain engaged and on track to meet their employment and training goals.

How does the SNAP State agency ensure the case management services offered do not act as an impediment to successful participation in E&T?

During the oversight process, technical assistance meetings, and training throughout the year, the State ensures case management is flexible, client-centered, and not overly burdensome. EF POs are encouraged to adjust the frequency and method of case management based on client needs and the component in which they are enrolled. For example, clients who are actively engaged in vocational training and making consistent progress may only need to check in monthly via email, rather than attending frequent in-person meetings. The use of monthly progress monitoring check-ins, the IEP, and the assessment allows case managers to tailor services without creating unnecessary administrative hurdles. Supportive services are proactively offered during each check-in to help remove barriers that could prevent successful participation. Furthermore, the State monitors case management frequency and delivery methods through administrative reports to identify and correct any practices that may inadvertently impede participation.

GOOD CAUSE

In accordance with 7 CFR 273.7(i), the State agency is responsible for determining good cause when a SNAP recipient fails or refuses to comply with SNAP work requirements. Since it is not possible for FNS to enumerate each individual situation that should or should not be considered good cause, the State agency must take into account the facts and circumstances, including information submitted by the employer and by the household member involved, in determining whether or not good cause exists.

How does the State agency reach out to the SNAP participant to determine good cause? Select all that apply.

- ☒ Phone Call
- ☒ Email
- ☐ Text Message
- ☐ Physical Form

How does the State agency reach out to the employers to determine good cause? Select all that apply.

How does the State agency reach out to E&T providers to determine good cause? Select all that apply.

- ☒ Phone Call
- ☒ Email
- ☐ Text Message
- ☒ Physical Form
- ☒ MIS System

How many attempts are made to reach out to the SNAP participant for additional information?

- ☒ One
- ☐ Two
- ☐ Three
- ☐ More than three

What is the State agency's criteria for good cause?

Colorado SNAP regulations 4.308.1 outline the same good cause reasons featured in 7 CFR 273.7(i). 4.308.1 states: Upon a determination that the individual voluntarily quit employment, the local office shall determine if there was good cause, which shall include, but not be limited to, any of the following: A. Discrimination by an employer based on age, race, sex, color, handicap, religious beliefs, national origin, or political beliefs; B. Work demands or conditions that render continued employment unreasonable, such as working without being paid on schedule; C. Acceptance by the individual of employment, or enrollment of at least half-time in any recognized school, training program, or institution of higher education, that requires the individual to leave employment; D. Acceptance by any other household member of employment or enrollment at least half-time in any recognized school, training program, or institution of higher education in another county or political subdivision which requires the household to move and thereby requires the individual to leave employment; E. Resignations by persons under the age of sixty (60) that are recognized by the employer as retirement; F. Resignation from employment that does not meet the suitable criteria specified in Section 4.310.51; G. Because of circumstances beyond the control of the individual, accepted full-time employment subsequently either does not materialize or results in employment of less than thirty (30) hours a week or weekly earnings of less than the federal minimum wage multiplied by thirty (30) hours; H. Leaving a job in connection with patterns of employment in which workers frequently move from one employer to another, such as migrant farm labor or construction work, even though employment at the new site has not actually begun; I. Illness of the head of household; J. Illness of another household member requiring the presence of the head of household; K. A household emergency; L. The unavailability of transportation; or, M. Employer demands a reduction in the participant's work effort or salary due to no fault of the employee. N. Lack of adequate child care for children who have reached age 6 but are under age 12

Describe the State agency's process to determine good cause if there is not an appropriate and available opening for an E&T participant.

Since Colorado is operating in a voluntary, non-ABAWD pledge SNAP E&T model, there are numerous openings for referrals from county SNAP eligibility workers. EF POs collaborate and develop shared business processes to communicate when an EF program is at capacity. For instance, if an external EF PO can only serve 50 clients for the year and they only have five available openings, they will communicate the number of openings over the phone, in writing, or in person to the appropriate county SNAP eligibility workers. As a result, the network is designed to ensure spots are available to all SNAP clients. The State E&T team convenes EF POs monthly to communicate program opportunities, program design, and appropriate and available openings. If an EF PO is close to or at capacity, another EF PO who provides similar services in the area could receive the referrals. Lastly, clients are also referred to local workforce centers and other E&T providers in the area. If an appropriate and available opening is not available, the client would be granted good cause.

PROVIDER DETERMINATIONS

In accordance with 7 CFR 273.7(c)(18) a State agency must ensure that E&T providers are informed of their authority and responsibility to determine if an individual is ill-suited for a particular E&T component.

Describe the process used by E&T providers to communicate provider determinations to the State agency.

When an EF PO determines that a client is unable to participate in EF, the EF PO is required to notify the county SNAP eligibility team through email, phone, or an in-person meeting about a provider determination (PD) within ten days of the date the determination is made. The EF PO is required to document the PD in CBMS, including updating the client's plan status to "EF Provider Determination" and detailed case comments. The EF PO may provide input on the most appropriate next steps for the client with a PD.

Describe how the State agency notifies clients of a provider determination.

As a state-supervised, county-administered state, the State agency is not responsible for notifying clients of a PD. This is the responsibility of the county's SNAP eligibility team. SNAP eligibility teams must notify the client of the PD within ten calendar days of receiving notification from the EF PO. This can be completed through a phone call attempt or a written notification that includes contact information for the client to call the county for further information.

What is the timeframe for contacting clients after receiving a provider determination?

- ☐ 1-3 Days
- ☐ 4-7 Days
- ☒ 8-10 Days

DISQUALIFICATION POLICY FOR GENERAL WORK REQUIREMENTS

This section applies to the General Work Requirements, not just to E&T, and should be completed by all States, regardless of whether they operate a mandatory or voluntary E&T program.

All work registrants are subject to SNAP work requirements at 7 CFR 273.7(a). A nonexempt individual who refuses or fails to comply without good cause, as defined at 7 CFR 273.7(2), (3), and (4), with SNAP work requirements will be disqualified and subject to State disqualification periods. Noncompliance with SNAP work requirements includes voluntarily quitting a job or reducing work hours below 30 hours a month, and failing to comply with SNAP E&T (if assigned by the State agency).

What period before application does the State agency use to determine voluntary quit and/or reduction in work effort without good cause per 7 CFR 273.7(j)(1)?

- ☐ 30 Days
☒ 60 Days

For all occurrences of non-compliance discussed below, must the individual also comply to receive benefits again?

- ☒ Yes
☐ No

For the first occurrence of non-compliance per 7 CFR 273.7(f)(2), the individual will be disqualified until the later of:

- ☒ One month or until the individual complies, as determined by the State agency
☐ Up to 3 months

For the second occurrence of non-compliance per 7 CFR 273.7(f)(2)(ii), the individual will be disqualified until the later of:

- ☒ Three months or until the individual complies, as determined by the State agency
☐ Up to 6 months

For the third or subsequent occurrence per 7 CFR 273.7(f)(2)(iii), the individual will be disqualified until the later of:

- ☒ 6 months or until the individual complies, as determined by the State agency
☐ A date determined by the State agency
☐ Permanently

The State agency will disqualify the:

- ☒ Individual
☐ The entire household if the head of household is an ineligible individual

PARTICIPANT REIMBURSEMENTS

In accordance with 7 CFR 273.7(d)(4), State agencies are required to pay for or reimburse participants for expenses that are reasonable, necessary, and directly related to participation in E&T. State agencies may impose a maximum limit for reimbursement payments. If a State agency serves mandatory E&T participants, it must meet all costs associated with mandatory participation. If an individual's expenses exceed those reimbursements available by the State agency, the individual must be placed into a suitable component or must be exempted from mandatory E&T.

Estimated number of E&T participants to receive participant reimbursements	11,549
Estimated number of E&T participants to receive reimbursements for dependent care participation costs	125
Estimated number of E&T participants to receive reimbursements for transportation and other participation costs	11,549
Percentage of participants expected to receive reimbursements	100.00%
Estimated budget for E&T participant reimbursements in upcoming FY	\$6,583,814.09
Estimated budget per participant in fiscal year	\$570.08
Estimated number of E&T participants to receive participant reimbursements per month	1,210
Estimated budget of participant reimbursements per E&T participant per month	\$453.43

PARTICIPANT REIMBURSEMENT DETAILS

Complete the table below with information on each participant reimbursement offered/permitted by the State agency (do not indicate information for each provider). A description of each category is included below. If the participant reimbursement is provided by multiple entities (such as State agencies and E&T providers) or has multiple methods of payment, a separate entry in the table must be completed.

- **Allowable Participant Reimbursements.** Every State agency must include child care and transportation in this table, as well as other major categories of reimbursements (examples of categories include, but are not limited to: tools, test fees, books, uniforms, license fees, electronic devices, etc.). Mandatory States must meet all costs associated with participating in an E&T program, or else they must exempt individuals from E&T.
- **Participant Reimbursement Caps (optional).** States have the option to establish maximum levels (caps) for reimbursements available to individuals. Indicate any caps on the amount the State agency will provide for the participant reimbursement.
- **Who provides the participant reimbursements?** Indicate if the participant reimbursement is provided by the State agency, a provider, or an intermediary. The State agency remains ultimately responsible for ensuring individuals receive participant reimbursements, even if it has contracted with another entity to provide them.
- **What is the payment method for Participant Reimbursements?** Indicate the mechanism used to disburse payment to E&T participants.
- **Method of disbursement.** Indicate if the participant receives the participant reimbursement in advance or as a reimbursement. Also indicate if the amount of the participant reimbursement is an estimated amount or the actual amount.

Allowable Participant Reimbursements	Participant Reimbursement Caps (Optional)	Who Provides the Participant Reimbursement?	What is the payment method for Participant Reimbursements?	Method of Disbursement
Automobile Repairs (AR)	3500	SNAP E&T Provider	Direct payment to vendor(s)	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issue for an actual amount on a case-by-case basis.

Background Checks/Drug Test/Fingerprinting needed for employment or training (BDF)	500	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issue for an actual amount on a case-by-case basis.
Cell phone bill (CPB)	100	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issue for an actual amount on a case-by-case basis.

Childcare (Dependent Care)	6000	SNAP E&T Provider	Direct payment to vendor(s)	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.
Clothing for job interviews/required for a job/uniforms (CL)	500	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.

Course/ registration fees/student activities fees (RF)	1000	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.
Equipment for work/ Personal safety items (PSI)	1000	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.

Housing assistance (HA)	3500	SNAP E&T Provider	Direct payment to vendor(s)	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.
Internet services (IS)	200	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.

Laptops/Computers/Tablets/Phones (LCT)	1000	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.
Legal services/ Documents required for employment or education (LD)	3500	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.

Licensing and bonding fees for work (LS)	500	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.
Medical services needed/ required for employment (dental needs, tattoo removal, vision needs; eye glasses or exam) (MS)	3500	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.

Personal hygiene items (PHI)	500	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.
School supplies/ books (SS)	3500	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.

Test fees (TF)	1000	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.
Training materials for short-term, technical, and other training (such as WBL and vocational training) (TM)	5000	SNAP E&T Provider	Direct payment to vendor(s)	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.

Transportation (bus passes, gasoline and costs associated with) (TR)	1500	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.
Tuition/Fees for short-term, technical, and other training (such as WBL and vocational training) that result in a new skill, credential, or certificate (TUF)	12000	SNAP E&T Provider	Direct payment to vendor(s)	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.

Union Dues (UD)	1000	SNAP E&T Provider	Direct payment to participant	EF POs vary in the method and cost of disbursement for this PR. EF POs may choose to provide an advance issued as an estimated or actual amount or as a reimbursement amount issued for an actual amount on a case-by-case basis.
-----------------	------	-------------------	-------------------------------	---

Is dependent care provided? Select yes even if E&T funds are not being used.

☒ Yes

☐ No

Provide a URL link or describe in a written response: the payment rates for childcare reimbursements, established in accordance with the Child Care and Development Block Grant (CCDBG) based on local market rate surveys.

In Colorado, dependent care fees are reimbursed in accordance with the Colorado Child Care Assistance Program (CCCAP) Reimbursement Rate Payment Schedule (in accordance with CCDBG and based on local market rate surveys) and based on other circumstances, such as but not limited to: The status of the provider (licensed or exempt) Established parental fees The age of the child Type of care provided (weekdays, weeknights, weekends, overnight, etc.) Actual attendance or absences When CCCAP is not available in an EF county, dependent care costs can be issued as a participant reimbursement. The Child Care Reimbursement Rate Payment Schedule for each county in Colorado can be found here: https://drive.google.com/drive/folders/1YSLL5Sn32NyKbp8Z0063ldFbAhQwfHW_

How is childcare paid for?

☐ Direct payment to provider

☐ Reimbursement to participants

☐ Provider voucher

☐ Contract for dependent care

☒ Other

Explain how else childcare is paid for.

Childcare payments vary by EF PO. All payment methods are offered, with the exception of a contract for dependent care.

If dependent care agencies have a waiting list or otherwise cap the number of enrolled dependents, how will the State agency ensure E&T participants with dependent care needs receive dependent care?

In cases where dependent care isn't available, EF POs will inform clients to use a friend or family member to provide childcare. Friends and/or family members who are not a part of the client's SNAP household are eligible to receive participant reimbursement payments for providing dependent care.

How does the State agency ensure that the participant has the necessary participant reimbursements to begin participation in the E&T program?

Through a combination of policy guidance, communication protocols, and participant-centered service delivery, the State ensures that all participants are equipped with the resources necessary to begin and sustain their participation in E&T. Eligibility workers and EF Program Operators (EF POs) are directed to inform clients of available participant reimbursements during the initial SNAP eligibility interview and again during the first EF appointment. This dual-point communication ensures that clients are aware of support services before beginning participation in E&T. To support immediate access to E&T services, EF POs use various methods to provide participant reimbursements in a timely and accessible manner. For example, many EF POs have bus passes or gas vouchers available on-site, or utilize EBT card loading to support transportation needs for clients attending their first EF appointment. Comprehensive employability assessments, conducted at the first appointment and throughout participation, identify and address logistical or financial barriers, including transportation, clothing, tools, or fees required to participate in components. This ensures that participant reimbursements are not only available at entry but are continually aligned with the client's evolving needs. Additionally, EF POs use program marketing materials, such as flyers and intake forms, to communicate what reimbursements are available and how to request them. This helps normalize the availability of support services and empowers clients to access what they need to engage in the program from the outset.

WORK REGISTRANT DATA

The SNAP general work requirements are described at 7 CFR 273.7(a). Individuals who do not meet a federal exemption from the general work requirements, as listed in 7 CFR 273.7(b)(1), are subject to the general work requirement and must register for work. In accordance with 7 CFR 273.7(c)(10), the State agency must submit to FNS the number of work registrants in the State as of October 1st. This information is submitted on the first quarter E&T Program Activity Report (FNS-583).

Describe the process the State agency uses to count all work registrants in the State as of the first day of the new fiscal year (October 1).

Colorado uses the CBMS to count all work registrants as of October 1, the first day of the new fiscal year. Work registrant status is determined by eligibility workers who assess each SNAP applicant's or recipient's work registration status during the eligibility determination process. CBMS captures this data and records the count of all work registrants in the system on October 1. This count serves as the baseline for the unduplicated annual count of work registrants.

Provide information about how work registrant data is pulled from the eligibility system, including the date the data is pulled.

Work registrant data is pulled directly from CBMS, the State's eligibility system, on October 1st and at least once a quarter. The system records the number of work registrants on October 1 and continues to record unduplicated counts on a monthly basis, including again on October 1 each year. The State EF program team then compiles and reports these figures quarterly and annually on the FNS-583 report.

How are work registrants identified in the eligibility system?

Work registrants are identified in CBMS by eligibility workers during the SNAP eligibility determination process. The eligibility worker evaluates each applicant's or recipient's status and assigns work registration status accordingly. This status is then recorded in CBMS, allowing the system to track individuals required to register for work under SNAP guidelines.

Describe measures taken to prevent duplicate counting of work registrants within the federal fiscal year.

The initial count of work registrants is provided from CBMS through a work registration status assigned by decision tables for each SNAP applicant and recipient. CBMS takes an annual snapshot of names and social security numbers of all work registrants in the system on October 1st, which is reported to FNS. Every subsequent month, CBMS takes a snapshot of work registration codes, social security numbers, and names on the last day of the month. All new work registrants are tallied throughout the year; duplicated names or social security numbers will not be counted again.

OUTCOME REPORTING MEASURES

Indicate the data source used for the national reporting measures. Select all that apply.

Outcome Reporting Measures	Employment & Earnings Measures	Attainment of Credential / Certificate	Measurable Skill Gains
Quarterly Wage Records (QWR)	☒	☐	☐
National Directory of New Hires (NDNH)	☐	☐	☐
State Management Information System (MIS)	☒	☒	☒
Manual Follow-up with SNAP E&T Participants	☐	☐	☐
Random Sample	☐	☐	☐
Other	☐	☐	☐

Indicate the data source used for the State-specific component measures. Select all that apply.

- ☒ Quarterly Wage Records (QWR)
- ☐ National Directory of New Hires (NDNH)
- ☒ State Management Information System (MIS)
- ☐ Manual Follow-up with SNAP E&T Participants
- ☐ Random Sample

Indicate the MIS used (e.g. SNAP eligibility system, State's Department of Labor MIS.)

Two MISs are used, the Colorado Benefits Management System and the Colorado Unemployment Benefit System.

COMPONENTS OVERVIEW

Which non-education, non-work components does the State agency plan to offer? Select all that apply.

- ☒ Job Retention
- ☐ Job Search Training
- ☒ Self-Employment Training
- ☒ Supervised Job Search
- ☒ Workfare

Which educational components does the State agency plan to offer? Select all that apply.

- ☒ Basic / Foundational Skills Instruction
- ☒ Career / Technical Education Programs or other Vocational Training
- ☒ English Language Acquisition
- ☐ Integrated Education and Training / Bridge Programs
- ☐ Other Educational Program
- ☒ Work Readiness Training

Which work experience components does the State agency plan to offer? Select all that apply.

- ☐ Work Activity
- ☒ Work-Based Learning

Which type of Work-Based Learning components are offered?

- ☒ Apprenticeship
- ☐ Customized Training
- ☐ Incumbent Worker Training
- ☒ Internship
- ☒ On-the-job Training
- ☒ Pre-Apprenticeship
- ☒ Transitional Jobs

NON-EDUCATION, NON-WORK COMPONENT: JOB RETENTION

Description of the component. Provide a summary of the activities and services.

EF clients are attached to JR for a minimum of 30 days, and up to 365 days after they obtain employment. EF POs shall inform all clients of the job retention services available to them at the EF program orientation, the initial appointment, during ongoing case management appointments, and when the client obtains employment. JR can be offered to clients who secured employment after participating in EF. JR can be provided after an EF client's SNAP case closes for up to 365 days.

Indicate the Target Population this component will serve. Select all that apply.

- ☐ ABAWDs
- ☐ English Language Learners
- ☐ Homeless
- ☐ Individuals who need a HSD or GED
- ☐ Individuals who need a credential
- ☐ Individuals who need a new skill
- ☐ Individuals with disabilities
- ☐ Returning citizens (aka: ex-offenders)
- ☐ Single parents
- ☐ Students
- ☐ Those that reside in rural areas
- ☐ Underemployed
- ☐ Veterans

Describe the criteria for participation. Include the skills, knowledge, or experience necessary for participation in the component. For example, literacy or numeracy levels, recent labor market attachment, computer literacy, etc.

Clients who obtain employment after participating in an E&T component are eligible to attach to JR.

Indicate the geographic areas where this component is offered.

- | | | |
|---|---|---|
| ☒ Adams County | ☒ Douglas County | ☒ Logan County |
| ☒ Alamosa County | ☒ El Paso County | ☒ Mesa County |

Projected Annual Participation. Projection should reflect a number of unduplicated individuals.

5,000

Estimated Annual Component Administrative Cost

\$1,763,000.00

Outcome Measure	Describe the methodology for the outcome reporting measure. Include timeframes being reported (e.g. denominator and numerator)
The number and percentage of clients enrolled in the component during FFY25 who retained their employment after one quarter.	The numerator will include an unduplicated count of clients who were placed in the component during the FFY period, October 1, 2025, to September 30, 2026, and who retained their employment for at least one quarter after entering the job retention component.

NON-EDUCATION, NON-WORK COMPONENT: SELF-EMPLOYMENT TRAINING

Description of the component. Provide a summary of the activities and services.

Description of the component Self-employment instruction for clients who are interested in taking classes to learn how to start or enhance their own business. Instruction can be facilitated in a group or one-on-one setting, virtually or in person. Clients should participate in this component for at least 12 hours a month in a supervised and/or non-supervised activity.

Indicate the Target Population this component will serve. Select all that apply.

- ☐ ABAWDs
- ☐ English Language Learners
- ☐ Homeless
- ☐ Individuals who need a HSD or GED
- ☐ Individuals who need a credential
- ☐ Individuals who need a new skill
- ☐ Individuals with disabilities
- ☐ Returning citizens (aka: ex-offenders)

40

Estimated Annual Component Administrative Cost

\$3,350.00

NON-EDUCATION, NON-WORK COMPONENT: SUPERVISED JOB SEARCH

Provide a summary of the State guidelines implementing supervised job search.

EF Clients enrolled in SJS receive job search guidance and case management from trained EF PO program workers. State-approved locations in Colorado are: workforce centers, county offices, public libraries, county human services departments, TPP offices, and client residences (when equipped with the technology necessary to participate in the component). All State-approved locations must have computers, internet, or Wi-fi available to the client. An on-site phone and printer are preferred, but not required, to be at a State-approved location. Clients are allowed to participate in SJS at state-approved locations. They are also required to meet with an EF PO once a month, with a level of effort of at least 12 hours a month. Monthly meetings can be conducted virtually or in person. The goal of a monthly meeting is for the EF PO worker to provide feedback to the client on job search efforts and offer supportive payments that aid the client in obtaining sustainable employment. EF PO workers will ensure that SJS activities directly increase clients' employment opportunities by maintaining a working knowledge of the local labor market and understanding which job search tools are required for certain occupations (resume, application, cover letter, etc.). Trained EF PO workers will directly supervise SJS through: Video conferencing, over-the-phone meetings, regular (at least monthly) check-ins through email, text messages, and other forms of technology that are easily accessible to a client. In-person meetings at a State-approved location and messaging apps where trained EF PO workers can provide real-time feedback and assistance to clients may also be utilized. Monthly SJS activities and meetings will be documented in CBMS for each client, including the amount of time the client spent in the activity or meeting.

Describe the direct path to employment.

EF POs ensure SJS leads directly to employment by enrolling only job-ready clients who have been assessed during EF orientation. These clients have the basic skills, availability, and stability needed to actively seek and secure work. Once enrolled, clients receive job search guidance and case management from trained EF PO team members, who have current knowledge of the local labor market. EF POs help clients target real job opportunities by supporting tailored applications, resumes, and job search strategies specific to in-demand occupations in the community. Clients complete at least 12 hours of job search per month and meet monthly with their EF PO for feedback and support, including help with employment barriers. Meetings can be virtual or in person and are used to keep job search efforts focused and effective. SJS is supervised through regular check-ins, virtual communication, and meetings at State-approved locations with internet and computer access. All activities are tracked in CBMS. This structure ensures a clear, direct path from job search to employment.

Indicate the Target Population this component will serve. Select all that apply.

- ☒ ABAWDs
- ☒ English Language Learners
- ☒ Homeless
- ☒ Individuals who need a HSD or GED
- ☒ Individuals who need a credential

Estimated Annual Component Administrative Cost

\$1,400,000.00

Outcome Measure	Describe the methodology for the outcome reporting measure. Include timeframes being reported (e.g. denominator and numerator)
The number and percentage of clients who obtained employment after two quarters of completion of the component.	The numerator will include those clients who obtained employment after completing the component during the FFY period, October 1, 2025, to September 30, 2026. The denominator will include the number of clients that participated in the component during the FFY period, October 1, 2025, to September 30, 2026.

NON-EDUCATION, NON-WORK COMPONENT: WORKFARE

Description of the component. Provide a summary of the activities and services.

Clients are required to work up to the number of hours equal to their SNAP allotment divided by the State minimum wage at a private, non-profit, or public organization. Clients are not required to work more hours monthly than the total number of hours obtained by dividing the household's monthly food stamp allotment by the higher of the applicable federal or state minimum wage, up to 30 hours weekly, and will not exceed 120 hours per month. Job search as part of the workfare component can only be up to 30 days following certification of SNAP benefits. Workfare opportunities must be within an in-demand career within the local labor market. All workfare placements are subject to the Fair Labor Standards Act (FLSA) and minimum wage laws apply.

Indicate the Target Population this component will serve. Select all that apply.

- ☐ ABAWDs
- ☐ English Language Learners
- ☐ Homeless
- ☐ Individuals who need a HSD or GED
- ☐ Individuals who need a credential
- ☐ Individuals who need a new skill

660

Estimated Annual Component Administrative Cost

\$250,000.00

Outcome Measure	Describe the methodology for the outcome reporting measure. Include timeframes being reported (e.g. denominator and numerator)
The number and percentage of clients who obtained employment two quarters following the completion of the component.	The numerator will include those clients who obtained employment after completing the component during the FFY period, October 1, 2025, to September 30, 2026. The denominator will include the number of clients that participated in the component during the FFY period, October 1, 2025, to September 30, 2026.

EDUCATIONAL COMPONENT: BASIC / FOUNDATIONAL SKILLS INSTRUCTION

Description of the component. Provide a summary of the activities and services.

Clients can receive preparation and/or testing for the General Equivalency Diploma (GED) or equivalent. They can also receive pre-GED and basic skills education. EPB is also for clients who test between a 5.5 and 8.5 grade level with the goal of increasing their skill level and attaining a GED. Homework, classwork, and participation in the learning environment may also be assigned and counted as participation hours. The minimum level of effort is 12 hours a month in this component.

Indicate the Target Population this component will serve. Select all that apply.

- ☐ ABAWDs
- ☐ English Language Learners
- ☐ Homeless
- ☐ Individuals who need a HSD or GED
- ☐ Individuals who need a credential
- ☐ Individuals who need a new skill
- ☐ Individuals with disabilities
- ☐ Returning citizens (aka: ex-offenders)

- ☐ Veterans

Describe the criteria for participation. Include the skills, knowledge, or experience necessary for participation in the component. For example, literacy or numeracy levels, recent labor market attachment, computer literacy, etc.

Individuals with a TABE score ranging from a 5.5. to 8.5 grade level, or individuals that express a desire to obtain a GED. An individual within one of Colorado's eight targeted populations (in section VIII(c)) may benefit from this component if they do not have a High School Diploma or GED. Each EF PO will target the populations identified within their EF PO plans and place an individual in this component based on the results of the comprehensive employability assessment, and the client's goals. Criteria: Can commit to the level of effort (at least 12 hours a month) Can communicate and produce progress updates for their EF PO upon request Can pursue and obtain employment or enter into another activity or into a WBL or WBL-SUB following completion of the EPB

Indicate the geographic areas where this component is offered.

400

Estimated Annual Component Administrative Cost

\$250,000.00

Not supplanting. Describe how the State agency ensures that costs attributed to the E&T program are not supplanting funds used for other existing educational programs.

All costs are vetted using the "supplement not supplant" model. Meaning that federal funds cannot be used to perform a service that would normally be paid for with State or local funds. Clients are allowed to receive assistance with transportation, purchasing books, and other supportive payments based upon assessed need while attached to this component. When conducting a comprehensive employability assessment with a client, EF PO workers determine if other funding options can be used for the client's education costs before E&T funds are used. EF PO workers are required to document this determination through a CBMS case comment, and provide appropriate documentation to further demonstrate that E&T funds are not supplanting non-federal funds when appropriate (such as an invoice or document that shows a student's education is being paid by another funding source) and the State EF team will monitor and review for this evidence during the State's ongoing oversight process.

Cost parity. Describe how the State agency ensures that costs charged to E&T do not exceed the costs charged for non-E&T participants.

EF POs ensure that E&T participants and non-E&T participants are charged the same for services provided by vendors. Costs are prorated by program; EF is only invoiced for E&T participants. For example, if a class consists of 80% E&T participants, EF is only invoiced for 80% of the instructor's salary. Before being paid, all costs are vetted using the prudent person principle and determined if said costs are reasonable and necessary for the client's participation in the component. EF POs are also required to search for competitive pricing in the local area when providing supportive payments. This cost parity is verified during the EF oversight process.

Outcome Measure	Describe the methodology for the outcome reporting measure. Include timeframes being reported (e.g. denominator and numerator)
The number and percentage of clients who obtained certification in basic education or foundational skills, or completed a high school equivalency program while enrolled in the component during the FFY.	The numerator will include clients who obtained certification in basic education or foundational skills or completed a high school equivalency program from October 1, 2025, to September 30, 2026, during the FFY period. The denominator will include the number of clients that participated in the component during the FFY period, October 1, 2025, to September 30, 2026.

EDUCATIONAL COMPONENT: CAREER / TECHNICAL EDUCATION PROGRAMS OR OTHER VOCATIONAL TRAINING

Description of the component. Provide a summary of the activities and services.

Placement or continuation in technical education programs or other training opportunities for clients who are enrolled and working towards a degree or industry-recognized certification. This component is also for clients who are enrolled and participating in skills training related to a specific occupation (i.e., welding, word processing, auto mechanics, truck driving school, data entry). Vocational Training may be funded by EF, WIOA, Vocational Rehabilitation, or any other E&T program.

Indicate the Target Population this component will serve. Select all that apply.

- ☐ ABAWDs
- ☐ English Language Learners
- ☐ Homeless
- ☐ Individuals who need a HSD or GED
- ☐ Individuals who need a credential
- ☐ Individuals who need a new skill
- ☐ Individuals with disabilities
- ☐ Returning citizens (aka: ex-offenders)
- ☐ Single parents
- ☐ Students
- ☐ Those that reside in rural areas
- ☐ Underemployed
- ☐ Veterans

Describe the criteria for participation. Include the skills, knowledge, or experience necessary for participation in the component. For example, literacy or numeracy levels, recent labor market attachment, computer literacy, etc.

Clients should have obtained or be on track to obtain a high school diploma or GED before attaching to this component. Clients without the skills, knowledge, and/or prior experience in the occupation of study can meet the criteria for EPC by researching and providing local labor market information to demonstrate how they may benefit from participating in EPC, such as: LMI Gateway analytics print-out O*NET Online employment outlook print-out Local job boards and/or Connecting Colorado Pre-employment offer letter Other documentation that supports the employment opportunity is in-demand or in a growing industry in the local labor market Criteria: Can commit to the level of effort (at least 12 hours a month) Can communicate and produce progress updates for their EF PO upon request Can pursue and obtain employment or enter a WBL or WBL-SUB following completion of the EPC

Indicate the geographic areas where this component is offered.

Projected Annual Participation. Projection should reflect a number of unduplicated individuals.

1,500

Estimated Annual Component Administrative Cost

\$3,200,000.00

Not supplanting. Describe how the State agency ensures that costs attributed to the E&T program are not supplanting funds used for other existing educational programs.

All costs are vetted using the "supplement, not supplant" model. Meaning that federal funds cannot be used to perform a service that would normally be paid for with State or local funds. Clients receiving FAFSA are not eligible for tuition assistance from E&T. EF POs check whether clients are receiving FAFSA via CBMS. Clients are allowed to receive assistance with transportation, purchasing books, and other supportive payments based upon assessed need while enrolled in this component. When conducting a comprehensive employability assessment with a client, EF PO workers determine if other funding options can be used for the client's education costs before E&T funds are used. EF PO workers are required to document this determination through a CBMS case comment and provide appropriate documentation to further demonstrate that E&T funds are not supplanting non-federal funds when appropriate (such as an invoice or document that shows a student's education is being paid by another funding source) and the State EF team will monitor and review for this evidence during the State's ongoing oversight process.
--

Cost parity. Describe how the State agency ensures that costs charged to E&T do not exceed the costs charged for non-E&T participants.

EF POs ensure that E&T participants and non-E&T participants are charged the same for services provided by vendors. Costs are prorated by program; EF is only invoiced for E&T participants. For example, if a class consists of 80% E&T participants EF is only invoiced for 80% of the instructor's salary. Before being paid all costs are vetted using the prudent person principle and determined if said costs are reasonable, allowable, and necessary for the client's participation in the component. EF POs are also required to search for competitive pricing in the local area when providing supportive payments. This cost parity is verified during the State's ongoing oversight process.

Outcome Measure	Describe the methodology for the outcome reporting measure. Include timeframes being reported (e.g. denominator and numerator)
The number and percentage of clients who obtained certification or successfully completed a career and/or technical education program or other vocational training while enrolled in the component during the FFY.	The numerator will include clients who obtained certification or successfully completed a career and/or technical education program or other vocational training from October 1, 2025, to September 30, 2026, during the FFY period. The denominator will include the number of clients that participated in the component during the FFY period, October 1, 2025, to September 30, 2026.

EDUCATIONAL COMPONENT: ENGLISH LANGUAGE ACQUISITION

Description of the component. Provide a summary of the activities and services.

English language classes for clients whose primary language is one other than English and whose lack of English language skills presents a barrier to employment. EPEL services may be provided in group or individual settings, and virtually or in person. Clients who attach to this component will need to complete at least 12 hours of facilitated training, individual training, and/or homework every month they are attached to the component.

Indicate the Target Population this component will serve. Select all that apply.

- ☒ ABAWDs
- ☒ English Language Learners

Not supplanting. Describe how the State agency ensures that costs attributed to the E&T program are not supplanting funds used for other existing educational programs.

All costs are vetted using the "supplement, not supplant" model. Meaning that federal funds cannot be used to perform a service that would normally be paid for with state or local funds. Clients are allowed to receive transportation assistance and any other supportive payments based upon assessed need while enrolled in this component. When conducting a comprehensive employability assessment with a client, EF PO workers determine if other funding options can be used for the client's education costs before E&T funds are used. EF PO workers are required to document this determination through a CBMS case comment and provide appropriate documentation to further demonstrate that E&T funds are not supplanting non-federal funds when appropriate (such as an invoice or document that shows a student's education is being paid by another funding source) and the State EF team will monitor and review for this evidence during the State's ongoing oversight process.

Cost parity. Describe how the State agency ensures that costs charged to E&T do not exceed the costs charged for non-E&T participants.

EF POs ensure that E&T participants and non-E&T participants are charged the same for services provided by vendors. Costs are prorated by program; EF is only invoiced for E&T participants. For example, if a class consists of 80% E&T participants EF is only invoiced for 80% of the instructor's salary. Before being paid all costs are vetted using the prudent person principle and determined if said costs are reasonable, allowable, and necessary for the client's participation in the component. EF POs are also required to search for competitive pricing in the local area when providing supportive payments. This cost parity is verified during the State's ongoing oversight process.

EDUCATIONAL COMPONENT: WORK READINESS TRAINING

Description of the component. Provide a summary of the activities and services.

EPWRT includes intensive programs that include skill assessment and educational remediation services that prepare individuals for the workforce. Work readiness skills may include both foundational cognitive skills such as reading for information, applied mathematics, locating information, problem solving, and critical thinking and non-cognitive skills, or soft skills, which are defined as personal characteristics and behavioral skills that enhance an individual's interactions, job performance, and career prospects such as adaptability, integrity, cooperation, and workplace discipline. Clients are required to attend classes online or receive individual instruction on basic/soft skills or skills listed above that increase work readiness. Instruction may also include, but is not limited to, improving communication skills and receiving customer service training. Aztec (online soft skill training and GED preparation) meets the requirements of this activity. Essential Education (an online soft-skill, job search, and GED preparation tool) also meets the requirements of this activity.

Indicate the Target Population this component will serve. Select all that apply.

- ☐ ABAWDs
- ☐ English Language Learners
- ☐ Homeless
- ☐ Individuals who need a HSD or GED
- ☐ Individuals who need a credential
- ☐ Individuals who need a new skill
- ☐ Individuals with disabilities

- ☐ Those that reside in rural areas
- ☐ Underemployed
- ☐ Veterans

Describe the criteria for participation. Include the skills, knowledge, or experience necessary for participation in the component. For example, literacy or numeracy levels, recent labor market attachment, computer literacy, etc.

Any EF client that demonstrates and requests a need for basic/soft skills training during the eligibility appointment or during the comprehensive employability assessment or a case management meeting. Individuals who are underemployed and returning citizens are the target populations that are mainly referred to this component. However, any other individual within one of the priority populations who express a need in attaining work readiness training will be referred. Each EF PO will target the populations identified within their EF PO plans and place an individual in this component based on the results of the comprehensive employability assessment and the client's goals.

Not supplanting. Describe how the State agency ensures that costs attributed to the E&T program are not supplanting funds used for other existing educational programs.

All costs are vetted using the "supplement not supplant" model. Meaning that federal funds cannot be used to perform a service that would normally be paid for with state or local funds. Clients are allowed to receive transportation assistance and other supports based on assessed need while enrolled in this component.

Cost parity. Describe how the State agency ensures that costs charged to E&T do not exceed the costs charged for non-E&T participants.

EF POs ensure that E&T participants and non-E&T participants are charged the same for services provided by vendors. Costs are prorated by program; EF is only invoiced for E&T participants. For example, if a class consists of 80% E&T participants, EF is only invoiced for 80% of the instructor's salary. Before being paid, all costs are vetted using the prudent person principle and determined if said costs are reasonable, allowable, and necessary for the client's participation in the component. EF POs are also required to search for competitive pricing in the local area when providing supportive payment. This cost parity is verified during the management evaluation process.

Outcome Measure	Describe the methodology for the outcome reporting measure. Include timeframes being reported (e.g. denominator and numerator)
The number and percentage of clients who retained employment two quarters after completion of the component.	The numerator will include those clients who retained employment two quarters after completing the component during the FFY period, October 1, 2025, to September 30, 2026. The denominator will include the number of clients that participated in the component during the FFY period, October 1, 2025, to September 30, 2026.

WORK EXPERIENCE COMPONENT: APPRENTICESHIP

Description of the component. Provide a summary of the activities and services.

In Colorado, an apprenticeship is an employer-driven model and type of experiential learning, combining paid, on-the-job learning with related classroom instruction in order to increase an apprentice's skill level and wages and provide employers with the talent they need to succeed. EF aligns with CDLE's apprenticeship definition, which ensures that an apprenticeship program is a strong plan that contains all terms and conditions for the qualification, recruitment, selection, employment, and training of apprentices, including the requirements for a written apprenticeship agreement between the apprentice and the sponsor. Apprenticeships can be provided by a community college, technical school, apprenticeship training school, or by the employer at multiple locations. EF POs will partner with training providers, apprenticeship providers, and employers in their area to develop internal business processes that identify when clients are ready for WBLA. Apprenticeships must be a sustained interaction with industry or community professionals in real-world settings to the extent practicable or simulated environments at an educational institution that foster in-depth, firsthand engagement with the tasks required in a given career field, that are aligned to curriculum and instruction. Apprenticeships emphasize employer engagement, include specific training objectives, and lead to regular employment. While engaged in this component, clients have access to educational and career counseling and other supportive services, directly or indirectly, as well as opportunities to attain at least one industry-recognized credential. All work activities and unsubsidized employment placements are subject to the Fair Labor Standards Act (FLSA), and minimum wage laws apply.

Is this component subsidized by SNAP E&T?

WORK EXPERIENCE COMPONENT: INTERNSHIP

Description of the component. Provide a summary of the activities and services.

WBLI is a form of experiential learning that integrates knowledge and theory learned in the classroom with practical application and skill development in a professional setting. WBLI gives students the opportunity to gain valuable applied experience and make connections in professional fields they are considering for career paths. WBLI also gives employers an opportunity to guide and evaluate an EF client's performance. WBLI will be a short-term (up to 12 months), hands-on, supervised work experience with a professional organization that is designed to increase a student's knowledge of a professional career field. WBLIs range from 20 - 400 hours total and include intentional learning objectives related to increasing student knowledge, training to develop additional skills, and quality supervision to guide and mentor the student. All work activities and unsubsidized employment placements are subject to the Fair Labor Standards Act (FLSA), and minimum wage laws apply. Employers, EF POs, and training providers will collaborate to develop curriculum for clients in WBLI to provide the student the opportunity to apply the knowledge gained in the classroom in a work setting. This curriculum will clearly define learning objectives/goals related to the professional goals of the student's academic coursework. It must not be simply to advance the operations of the employer or be the work that a regular employee would routinely perform. Labor market research and the skills needed in WBLI will be used to identify if the skills or knowledge learned are transferable to other employment settings. Employers, EF POs, and training providers will define a beginning and end and develop a job description with desired qualifications based on labor market reach and the skills/qualifications needed to obtain employment following the WBLI. WBLIs can last up to 12 months. The employer must provide supervision by a professional with expertise and an educational and/or professional background in the field of the experience. The experienced supervisor must also provide routine feedback. The employer must provide resources, equipment, and facilities (identified in labor market research, such as job postings, etc.) that support learning objectives/goals. A WBLI should be in an in-demand career within the local area and can be demonstrated through: LMI Gateway analytics print-out O*NET Online employment outlook print-out Local job boards and/or Connecting Colorado Pre-employment offer letter Other documentation that supports the employment opportunity is in-demand or in a growing industry in the local labor market

10

Estimated Annual Component Administrative Cost

\$120,000.00

WORK EXPERIENCE COMPONENT: ON-THE-JOB TRAINING

Description of the component. Provide a summary of the activities and services.

Colorado's EF program aligns with CDLE's WIOA definition of WBLOJT. WBLOJT is training by an employer that is provided to a paid participant while engaged in productive work in a job that: 1. Provides knowledge or skills essential to the full and adequate performance of the job; 2. Is made available through a program that provides reimbursement to the employer of up to 100% (varies by EF PO) of the wage rate of the client for the extraordinary costs of providing the training and additional supervision related to the training; and 3. Is limited in duration as appropriate to the occupation for which the client is being trained, taking into account the content of the training, the prior work experience of the client, and the service strategy of the client, as appropriate. EF POs may place clients in a WBLOJT through a contract with an employer or apprenticeship program sponsor in the public, private non-profit, or private sector. A WBLOJT contract must be limited to the period of time required for a participant to become proficient in the occupation for which the training is being provided (ranging from 1 - 6 months). In determining the appropriate length of the contract, consideration should be given to the skill requirements of the occupation, the academic and occupational skill level of the participant, prior work experience, and the participant's individual employment plan (20 CFR 680.700). WBLOJT is defined as paid training by an employer that is provided to an EF client while engaged in productive work in a job that: Provides the knowledge or skills essential to the full and adequate performance of the job; Is limited in duration as appropriate to the occupation for which the EF client is participating in the OJT, taking into account the content of the training, the prior work experience of the client, and the service strategy of the client, as appropriate. Although EF WBLOJT is defined by WIOA, WIOA OJT is not included in this component. All work activities and unsubsidized employment placements are subject to the Fair Labor Standards Act (FLSA), and minimum wage laws apply.

Outcome Measure	Describe the methodology for the outcome reporting measure. Include timeframes being reported (e.g. denominator and numerator)
The number and percentage of clients who successfully completed an on-the-job training and obtained employment two quarters after completion of the on-the-job training.	The numerator will include clients who successfully completed on-the-job training and obtained employment from October 1, 2025, to September 30, 2026, during the FFY period. The denominator will include the number of clients that participated in the component during the FFY period, October 1, 2025, to September 30, 2026.

WORK EXPERIENCE COMPONENT: PRE-APPRENTICESHIP

Description of the component. Provide a summary of the activities and services.

In Colorado, a pre-apprenticeship program prepares clients to enter and succeed in a registered apprenticeship program. EF adopts CDLE's definition of pre-apprenticeship, which includes: (1) Have a clearly articulated relationship to one or more registered apprenticeships (2) Have an opportunity to enroll their graduates into a registered apprenticeship. In addition, Pre-apprenticeships must assist clients by helping them meet entry requirements (e.g. GED, assessment, certification), exposing them to an unfamiliar occupation, and/or building soft skills. Instruction can be provided by a community college, technical school, apprenticeship training school, or by the employer. EF POs will partner with training providers, apprenticeship providers, and employers in their area to develop internal business processes that identifies when clients are ready for WBLPA. Pre-apprenticeships range from 2-3 months with a minimum of 100 to a maximum of 400 hours per pre apprenticeship opportunity. Education partners collaborate with employers to develop curricula based on skills and knowledge needed by the apprentice. The instruction can be provided at the school, online, or at the work site. Pre-apprenticeship are sustained interaction with industry or community professionals in real-world settings to the extent practicable or simulated environments at an educational institution that foster in-depth, firsthand engagement with the tasks required in a given career field, that are aligned to curriculum and instruction. Pre-apprenticeships and apprenticeships emphasize employer engagement, include specific training objectives, and lead to regular employment. Clients are screened for this component during the initial comprehensive employability assessment and/or following completion of an educational program. Clients have access to educational and career counseling and other supportive payments, directly or indirectly while engaged in this component, as well as opportunities to attain at least one industry-recognized credential. All work activities and unsubsidized employment placements are subject to the Fair Labor Standards Act (FLSA) and minimum wage laws apply.

WORK EXPERIENCE COMPONENT: TRANSITIONAL JOBS

Description of the component. Provide a summary of the activities and services.

WBLTJ consists of jobs in the public, private, or nonprofit sectors and are only available for individuals with barriers to employment who are chronically unemployed or who have an inconsistent work history. Transitional jobs provide individuals with work experience and an opportunity to develop workplace skills within the context of an employee-employer relationship. In a WBLTJ that is unsubsidized, the employer will act as the Employer of Record and pay the client's wage. The EF PO and employer collaborate to develop a curriculum and duration for the transitional job on a case-by-case basis, based on the client's need, local labor market information, and the occupation the WBLTJ is in. The curriculum will be tailored to the training activities and work assignments needed for the client to develop the skills necessary to attach to long-term sustainable employment once the transitional job has ended. A transitional job activity/curriculum may include: Integration of training with work (e.g., Safeserv certification in the food preparation industry) Safety and general position duty training Work schedule and time sheet responsibilities Training/skill attainment milestones specific to the occupation (e.g., number of hours needed to earn a fork-lift operation certificate) Frequent performance reviews and/or pre- and post- skill assessments. Clients should not participate in a transitional job opportunity for more than 12 months. The minimum level of effort is 12 hours a month in this component. The types of employers and jobs that this component will target is based on the in-demand occupations within a county or region. All work activities and unsubsidized employment placements are subject to the Fair Labor Standards Act (FLSA) and minimum wage laws apply.

Is this component subsidized by SNAP E&T?

- ☐ Subsidized
☐ Unsubsidized
☒ Both subsidized and unsubsidized

Indicate the Target Population this component will serve. Select all that apply.

- ☒ ABAWDs
☒ English Language Learners
☒ Homeless
☒ Individuals who need a HSD or GED
☒ Individuals who need a credential
☒ Individuals who need a new skill
☒ Individuals with disabilities
☒ Returning citizens (aka: ex-offenders)
☒ Single parents
☒ Students
☒ Those that reside in rural areas
☒ Underemployed
☒ Veterans

Describe the criteria for participation. Include the skills, knowledge, or experience necessary for participation in the component. For example, literacy or numeracy levels, recent labor market attachment, computer literacy, etc.

Individuals who meet the below qualifying criteria and have the ability to address barriers to employment (demonstrated through the comprehensive employability assessment) may attach to WBLTJ. Criteria: Have an HSD or GED, or are able to participate in a ABE, HSD, or GED program during their participation in a WBLTJ. Can commit to the level of effort (at least 12 hours a month) Can work with an EF PO to address barriers to employment (such as receiving legal services, attending work readiness classes, and other services that assist the client with finding employment immediately following completion of a WBLTJ). When required, can answer pre- and post-skill assessments Can commute to and from the WBLTJ employer's host site Can communicate and produce progress updates for their EF PO upon request Can pursue and obtain employment following completion of the WBLTJ Chronically underemployed or have an inconsistent work history A WBLTJ should be in an in-demand career within the local area and can be demonstrated through: LMI Gateway analytics print-out O*NET Online employment outlook print-out Local job boards and/or Connecting Colorado Pre-employment offer letter Other documentation that supports the employment opportunity is in-demand or in a growing industry in the local labor market

Indicate the geographic areas where this component is offered.

Projected Annual Participation. Projection should reflect a number of unduplicated individuals.

95

Of the total projected annual participation, how many participants are anticipated to receive wages subsidized by E&T?

20

Estimated Annual Component Administrative Cost

\$250,000.00

CONTRACTS OVERVIEW

The State agency must enter every contract or third-party partner. Additionally, the State agency must report if an intermediary directly holds subcontracts with employment and training providers for the delivery of SNAP E&T services. The table below summarizes overall information across all contracts.

Total Number of Contracts + Subcontracts	Total Participants to be Served by Contracts	Total Admin Costs	Total Participant Reimbursement Costs	Total Budget
47	11,549	\$37,069,433.52	\$6,583,814.09	\$43,653,247.61

CONTRACTOR: ACTIVATE WORK INC

Is this Contractor an Intermediary with subcontractors?

☐ Yes

☒ No

Indicate the service type

☐ Consulting

WBL PROGRAMS OVERVIEW

State agencies must report on each provider that plans to offer a Work-based Learning (WBL) component, whether it is unsubsidized or subsidized by SNAP E&T funds.

WBL ACTIVITY: COUNTY DEPARTMENT OF HUMAN/SOCIAL SERVICES: ARAPAHOE

PROVIDER: COUNTY DEPARTMENT OF HUMAN/SOCIAL SERVICES: ARAPAHOE

COMPONENT: SWBL - APPRENTICESHIP

What is the length of the activity?

- ☐ 1 month
- ☐ 2 months
- ☒ 3 months
- ☐ 4 months
- ☐ 5 months
- ☐ 6 months
- ☐ Greater than 6 months (limited exceptions)

What is the industry field of the activity?

- ☒ Construction
- ☒ Education
- ☒ Foodservice
- ☒ Healthcare service
- ☐ Landscape and Horticultural
- ☐ Leisure and Hospitality
- ☒ Manufacturing
- ☒ Retail services
- ☐ Transportation and Warehousing
- ☐ Other

What is the projected annual number of participants to participate?

1

What are the training objectives for the activity?

- ☐ Attainment of a Credential or Certificate
- ☐ Basic skill gains
- ☒ Industry skill gains

Will the participants interact with industry professionals in a real-world setting?

- ☒ Yes
- ☐ No

What is the source for the non-federal share of the SWBL activity?

SNAP E&T Reimbursement

Were employers or industry sector representatives consulted in the design and training curriculum?

- ☒ Yes
- ☐ No

Does the provider use a curriculum that includes career-training objectives that the participant is expected to learn and be able to do by the completion of the training?

- ☒ Yes
- ☐ No

Are employers or industry professionals involved in the development and/or execution of the training element of the activity?

- ☒ Yes
- ☐ No

Are the training objectives provided to the participant?

- ☐ Yes, by the Provider
- ☒ Yes, by Employer of Record
- ☐ No

Is there a process for the provider/employer of record to give feedback to the participant on their progress toward meeting the training objective?

- ☒ Yes
- ☐ No

Provide a brief explanation that describes how the provider focuses on moving participants promptly into regular, unsubsidized employment.

The provider focuses on moving participants promptly into regular, unsubsidized employment by implementing a structured, client-centered career training pipeline through the Employment First Program. In partnership with service providers, the program connects participants to targeted training opportunities via a dedicated liaison. The model uses individualized training plans based on comprehensive assessments to guide participants through soft skills development, technical training aligned with industry needs, and job readiness support. Training is delivered through workshops, one-on-one coaching, and partner-led sessions, with regular assessments to monitor progress and ensure alignment with employer expectations.

Does the work site employer or other industry employer partners hire the majority of the activity graduates?

☒ Yes

☐ No

☐ N/A

Are participant reimbursements/support services provided to SNAP E&T participants for expenses that are reasonable, necessary and directly related to participating in the activity?

☒ Yes

☐ No

What is the hourly wage rate?

\$15.00

What percentage of wages will be subsidized by SNAP E&T?

50.00%

Indicate the total number of hours that an individual is expected to participate.

400

Indicate the SNAP E&T funding source to be used.

☐ 100% Admin Funds

☒ 50/50 Admin Funds

Will the WBL program cover other costs associated with wages, such as Workers Compensation or Payroll Taxes?

☒ Yes

☐ No

What is the total amount of Workers Compensation or Payroll Taxes that is covered or reimbursed by SNAP E&T?

\$1,000.00

What is the total amount of other administrative costs associated with the activity that is covered or reimbursed by SNAP E&T, such as additional case management hours?

\$500.00

Total Projected Wages to be Paid to Participants	Total Projected Subsidized Wages	Total Projected Wages Covered/Reimbursed by SNAP E&T	Total Cost of WBL Activity to be Covered/Reimbursed by SNAP E&T
\$6,000.00	\$3,000.00	\$1,500.00	\$3,000.00

Provide a brief explanation that describes how the provider focuses on moving participants promptly into regular, unsubsidized employment.

The provider focuses on moving participants promptly into regular, unsubsidized employment by implementing a structured, client-centered career training pipeline through the Employment First Program. In partnership with service providers, the program connects participants to targeted training opportunities via a dedicated liaison. The model uses individualized training plans based on comprehensive assessments to guide participants through soft skills development, technical training aligned with industry needs, and job readiness support. Training is delivered through workshops, one-on-one coaching, and partner-led sessions, with regular assessments to monitor progress and ensure alignment with employer expectations.

Throughout the pre-apprenticeship, participants build connections to potential employers through fieldwork, instruction, and site visits conducted by employer partners. The Workforce Development manager and Case Manager work together on resume building, interview skills, and job readiness training. They connect pre-apprentices to available job opportunities, provide direct support in the application process, and serve as a reference during the interview process. Post-employment, they continue to check in with employers and employees to identify issues and break down barriers before they become too big. Through internships with The Park People, former TreeForce participants are placed with external organizations for a 3-6 month period. During this time, they join a work crew to learn the basics of tree care on the job. At the conclusion of the internship, interns may be hired on by the organization, or a direct connection to an employer is made. These internships provide an accelerated pathway to private sector employment, giving them a head start in their first full-time position.

At the end of the program, and upon completion of their coursework, participants spend time at a district host site completing the WBL portion of the program. At the end of their WBL, the participant is given an opportunity to indicate their interest in an open position. The district will then set up an interview for the participant. Once hired by the district, the participant is eligible to pursue the Apprenticeship program when they are ready to continue developing in their career. Job Retention Services, including career coaching and support services, will also be available to support SNAP participants as they move from completing the Pre-Apprenticeship into employment at the district. While we intend for participants to move into employment at their district upon completing the program, Job Retention Services will also be available to SNAP participants who may gain employment elsewhere upon completion of the program.

☐ No

Is there a process for the provider/employer of record to give feedback to the participant on their progress toward meeting the training objective?

☒ Yes

☐ No

Provide a brief explanation that describes how the provider focuses on moving participants promptly into regular, unsubsidized employment.

The provider focuses on moving participants promptly into regular, unsubsidized employment by implementing a structured, client-centered career training pipeline through the Employment First Program. In partnership with service providers, the program connects participants to targeted training opportunities via a dedicated liaison. The model uses individualized training plans based on comprehensive assessments to guide participants through soft skills development, technical training aligned with industry needs, and job readiness support. Training is delivered through workshops, one-on-one coaching, and partner-led sessions, with regular assessments to monitor progress and ensure alignment with employer expectations.

Does the work site employer or other industry employer partners hire the majority of the activity graduates?

Is there a process for the provider/employer of record to give feedback to the participant on their progress toward meeting the training objective?

☒ Yes

☐ No

Provide a brief explanation that describes how the provider focuses on moving participants promptly into regular, unsubsidized employment.

The provider focuses on moving participants promptly into regular, unsubsidized employment by implementing a structured, client-centered career training pipeline through the Employment First Program. In partnership with service providers, the program connects participants to targeted training opportunities via a dedicated liaison. The model uses individualized training plans based on comprehensive assessments to guide participants through soft skills development, technical training aligned with industry needs, and job readiness support. Training is delivered through workshops, one-on-one coaching, and partner-led sessions, with regular assessments to monitor progress and ensure alignment with employer expectations.

What is the projected annual number of participants to participate?

1

What are the training objectives for the activity?

- ☐ Attainment of a Credential or Certificate
- ☐ Basic skill gains
- ☒ Industry skill gains

Will the participants interact with industry professionals in a real-world setting?

☒ Yes

☐ No

Will participants receive wages subsidized by another program?

☐ Yes

☒ No

Were employers or industry sector representatives consulted in the design and training curriculum?

☒ Yes

☐ No

Does the provider use a curriculum that includes career-training objectives that the participant is expected to learn and be able to do by the completion of the training?

☒ Yes

☐ No

Are employers or industry professionals involved in the development and/or execution of the training element of the activity?

☒ Yes

☐ No

Are the training objectives provided to the participant?

☒ Yes, by the Provider

☐ Yes, by Employer of Record

☐ No

Is there a process for the provider/employer of record to give feedback to the participant on their progress toward meeting the training objective?

☒ Yes

☐ No

Provide a brief explanation that describes how the provider focuses on moving participants promptly into regular, unsubsidized employment.

The provider focuses on moving participants promptly into regular, unsubsidized employment by implementing a structured, client-centered career training pipeline through the Employment First Program. In partnership with service providers, the program connects participants to targeted training opportunities via a dedicated liaison. The model uses individualized training plans based on comprehensive assessments to guide participants through soft skills development, technical training aligned with industry needs, and job readiness support. Training is delivered through workshops, one-on-one coaching, and partner-led sessions, with regular assessments to monitor progress and ensure alignment with employer expectations.

Does the work site employer or other industry employer partners hire the majority of the activity graduates?

☒ Yes

☐ No

☐ N/A

Are participant reimbursements/support services provided to SNAP E&T participants for expenses that are reasonable, necessary and directly related to participating in the activity?

☒ Yes

☐ No

Pre-apprenticeship students in their third week meet with our Employment Specialist to begin the employment process. That includes updating their resumes, interview practice, and creating a list of potential employers. In the next five weeks, they will research employers and fill out applications while completing their culinary training. Their Employment Specialist will continue to oversee and support them.

OPERATING BUDGET

The regulations at 7 CFR 273.7(c)(6) outline State agencies must include an operating budget for the year. Complete all cost categories, as applicable. Note that the cost categories, outside of the contractual or county administered program line items, apply only to the State agency costs. The calculated values will automatically display upon selecting the Quick Save button.

Direct Program and Admin Costs

	Non-Federal Share	Federal Share	Total
Salary/Wages (State agency only)	\$247,513.00	\$539,185.00	\$786,698.00

List Full Time Equivalent (FTE) staff positions, percentage of time spent on the project, and average annual salary of each position. Example: E&T Manager - \$60,000 * .50 FTE = \$30,000; 5 E&T Counselors = \$25,000 * 1.00 FTEs * 5 = \$125,000.

Administrator of Strategic Partnerships, 0.60 FTE X \$115,000.00 = \$69,000.00 Policy and Oversight Supervisor, 0.75 FTE X \$95,000.00 = \$71,250.00 Policy & Oversight Program Lead, 0.75 FTE X \$80,000.00 = \$60,000.00 Policy & Oversight Coordinators, 1.50 FTE X \$130,000.00 = \$195,000.00 Partner Management Supervisor, 0.60 FTE X \$95,000.00 = \$57,000.00 Partner Management Program Lead, 0.80 FTE X \$80,000.00 = \$64,000.00 Partner Management Liaison, 1.50 FTE X \$70,000.00 = \$105,000.00 Resource Coordinator 0.60 FTE X \$70,000.00 = \$42,000.00 Contracts and Procurement Supervisor, 0.33 FTE X \$95,000.00 = \$31,350.00 Contracts and Procurement Lead, 0.75 FTE X \$80,000.00 = \$60,000.00 Program Evaluator, 1.00 FTE X \$90,000.00 = \$90,000.00 Senior Fiscal and Policy Advisor, 1.00 FTE X \$90,000.00 = \$90,000.00 Pro-rata costs to Director and Executive 0.33 FTE X \$125,000 = \$41,250.00 staff and Department support staff) Total 10.51 FTE X \$1,215,000 = 975,850
The amounts listed above include annual salaries and fringe benefits.

	Non-Federal Share	Federal Share	Total
Fringe Benefits	\$54,478.00	\$118,675.00	\$173,153.00

Explain how fringe benefits are calculated and clearly explain how the amount listed was determined. If charging fringe benefits to the E&T program, provide the approved fringe rates.

Fringe benefits are calculated as a percentage of total salary and wages and include costs associated with group insurance (e.g., health, dental, life), retirement contributions, and other employee benefits provided by the Colorado Department of Human Services. The fringe benefit rate used for this plan is 22.1% and is based on actual expenditures for FFY26.

	Non-Federal Share	Federal Share	Total
Non-Capital Equipment	\$0.00	\$2,000.00	\$2,000.00

Describe non-capital equipment and supplies to be purchased with E&T funds.

An estimated \$2,000 for computer equipment and other office equipment (printer/scanners)

	Non-Federal Share	Federal Share	Total
Materials	\$0.00	\$2,000.00	\$2,000.00

Describe materials to be purchased with E&T funds.

Materials, including marketing materials, office supplies, and technical equipment other than computer leases.

	Non-Federal Share	Federal Share	Total
Travel	\$0.00	\$12,000.00	\$12,000.00

Describe the purpose and frequency of staff travel charged to the E&T program. This should not include E&T participant reimbursements for transportation. Include planned staff training and registration costs for training that will be charged to E&T funds.

Staff travel costs charged to the E&T program support the administration, oversight, and continuous improvement of SNAP E&T operations at the state level. Travel is primarily conducted to provide technical assistance to local providers, conduct monitoring and management evaluations, and participate in SNAP E&T-related meetings, conferences, and workforce development events. These activities ensure alignment with federal program requirements, promote consistency across partners, and support the overall effectiveness of the program. Travel is expected to occur periodically throughout the year, at least once a quarter, with State E&T staff participating in multiple in-state engagements based on programmatic needs, local site support, and annual oversight schedules. All staff travel and training expenses charged to the E&T program are necessary, reasonable, and directly related to the administration and improvement of the SNAP E&T program, in compliance with federal cost principles.

	Non-Federal Share	Federal Share	Total
Building Space	\$0.00	\$0.00	\$0.00

Explain how building space is calculated and clearly explain how the amount listed above was determined. If charging building space to the E&T program, describe the method used to calculate space value.

The cost of building space is included in indirect costs, and is no cost in this section. See the indirect cost statement below.

	Non-Federal Share	Federal Share	Total
Equipment and other capital expenditures	\$0.00	\$0.00	\$0.00

Describe equipment and other capital expenditures over \$5,000 per item that will be charged to E&T funds. (In accordance with 2 CFR 200.407, prior written approval from FNS is required.)

Not applicable for this federal fiscal year.

	Non-Federal Share	Federal Share	Total
Subtotal / State Agency Costs Only	\$301,991.00	\$673,860.00	\$975,851.00
Contractual Costs	\$17,869,841.01	\$19,199,592.51	\$37,069,433.52
County Administered Direct Program Admin Cost	\$0.00	\$191,879.50	\$191,879.50
Total Direct Program and Admin Costs	\$18,171,832.01	\$20,065,332.01	\$38,237,164.02

Indirect Costs - Using Indirect Cost Rate

	Non-Federal Share	Federal Share	Total
Indirect Costs	\$0.00	\$0.00	\$0.00

Indirect costs (also called overhead costs) are allowable activities that support the E&T program, but are charged directly to the State agency. If using an indirect cost rate approved by the contingent agency, upload the approval letter.

No File Uploaded

Indirect Costs - Using Federally Approved Cost Allocation Plan

	Non-Federal Share	Federal Share	Total
Federally Approved Cost Allocated Costs - State agency only	\$150,000.00	\$150,000.00	\$300,000.00
County Administered Allocated Costs (only applicable to County Administered Programs)	\$0.00	\$0.00	\$0.00
Total Allocated Costs based on Cost Allocation Plan	\$150,000.00	\$150,000.00	\$300,000.00

In-kind Contribution

	Non-Federal Share	Federal Share	Total
State In-kind Contribution	\$0.00	\$0.00	\$0.00
Total Administrative Costs	\$18,321,832.01	\$20,215,332.01	\$38,537,164.02

Participant Reimbursements

	Non-Federal Share	Federal Share	Total
Dependent Care	\$29,612.50	\$29,612.50	\$59,225.00
Transportation & Other Costs	\$3,262,294.55	\$3,262,294.54	\$6,524,589.09
State Agency Cost for Dependent Care	\$0.00		\$0.00
Total Participant Reimbursements	\$3,291,907.05	\$3,291,907.04	\$6,583,814.09

Total Costs

Total Cost	\$21,613,739.06	\$23,507,239.05	\$45,120,978.11

FUNDING SOURCES

Fields for the Funding Sources section will populate from other sections, such as the Operating Budget section or annual allocations decided by FNS OET.

The system will provide the States 100 percent allocation as well as the target for the total 50/50 funds, as provided in the annual E&T final allocation memo.

State agencies may enter funds into the field "100 Percent Federal Grant - Additional Funds" for planning purposes. This field must be blank before initial submission. State agencies that wish to request additional 100% funds can do so via the Funding Requests tab. If the request is approved, State agencies will see the approved amount populated in this field, and a new State Plan Amendment must be submitted.

The system utilizes a formula that distributes administrative costs to the various funding sources (i.e. 100 percent Federal, 50 percent Federal Admin and 50 percent Non-Federal Admin.) The formula also establishes a funding hierarchy for the use of all available 100 percent Federal funds. This funding hierarchy will assign the planned administrative expenses against the regular 100 Federal grant first, then depending upon availability, against additional 100 percent funds, able-bodied adults without dependents (ABAWD) pledge funds, if applicable. Any planned costs over the available 100 percent funds will be evenly distributed against the 50 percent Admin funds.

The planned expenses shown for the field "100% Federal Grant" will be inclusive of the formula allocation, as well as any additional Federal funds approved. Fields in the column "Distribution of Planned Expenses" are populated from the planned expenses table. States can use this table to extrapolate figures, but cannot submit the form until 100% of Federal additional funds under the "Allocation or Target" column has been removed.

SNAP Employment and Training Funding Sources

Source Type	Funding Sources	Allocation or Target	Distribution of Planned Expenses	Over/Under Allocation/Target or Over/Under Planned Expenses	Percent of Allocation Planned Use
Federal	100 Percent Federal Grant	\$1,893,500.00	\$1,893,500.00	\$0.00	100.00%
Federal	100 Percent Federal Grant - Additional Funds	\$0.00	\$0.00	\$0.00	
Federal	ABAWD Pledge Grant		\$0.00	\$0.00	
Federal	Total - All 100 Percent Funds	\$1,893,500.00	\$1,893,500.00	\$0.00

Total	\$21,613,739.06	\$23,507,239.05	\$45,120,978.11

PLEDGE TO SERVE ALL AT-RISK ABAWDs

The Act authorizes FNS to allocate \$20 million annually to State agencies that commit, or pledge, to ensuring the availability of education, training, or workfare opportunities that permit able-bodied adults without dependents (ABAWDs) to remain eligible beyond the 3-month time limit.

To be eligible for these additional funds (pledge funds), State agencies must pledge to offer and provide an opportunity in a work program that meets the participation requirements of 7 CFR 273.24 to every applicant and recipient who is in the last month of the 3-month time limit and not otherwise exempt. Individuals are exempt from the time limit if they meet an exception under 7 CFR 273.24(c), reside in an area covered by a waiver in accordance with 7 CFR 273.24(f), or who are exempted by the State under 7 CFR 273.24(g). ABAWDs who meet the criteria outlined in 7 CFR 273.7(d)(3)(i) are referred to as “at-risk” ABAWDs.

Is the State agency pledging to offer qualifying activities to all at-risk ABAWDs?

☐ Yes

☒ No
