

Interest Paid on a Student Loan

Complete this schedule if interest was paid in 2025 on a student loan granted to you.

Also complete this schedule if, for 2024, you calculated an amount for interest paid on a student loan and decided to carry the amount forward to a future year.

If interest was paid on your student loan after 1997, but in 2024 you did not calculate the amount that could be carried forward, enter the result of the following calculation on line 46: interest paid for 1998 through 2024 **minus** the interest already used to calculate a credit for interest paid on a student loan for previous years.

Unused portion of the interest paid on a student loan (line 62 of Schedule M for 2024 or the amount shown in this respect on your **2024 notice of assessment**)

Interest paid in 2025 on a student loan

Add lines 46 and 48.

Carry all or part of this amount to line 385 of your return.

Amount carried to line 385 of your 2025 return

Subtract line 60 from line 52.

Amount that can be carried forward to a future year
