
**DEPARTMENT
POLICY****Family Independence Program (FIP), Refugee Cash Assistance (RCA), State Disability Assistance (SDA), Medicaid (MA), Child Development and Care (CDC) Food Assistance Program (FAP)**

Process the following case actions:

- Initial applications and reapplications; Bridges Administrative Manual (BAM) [115, Application Processing](#).
- [BAM 210, Redeterminations](#).
- [BAM 205, Reinstatements](#).

Bridges will evaluate each change reported and entered in the system to determine if it affects eligibility.

Exception: For Medicaid only, the Michigan Department of Health and Human Services (MDHHS) health services side, shares responsibility for medical services authorization (MSA) and certain related determinations when a recipient in managed care becomes a Long-Term Care/Hospital patient; see [Bridges Administrative Manual 120, DCH/DHS Coordination](#), for details.

Changes in circumstances may be reported by the client, via computer tape matches, through quality assurance (QA) reviews, or by other means.

A **positive action** is a Michigan Department of Health & Human Services (MDHHS) action to approve an application or increase a benefit.

A **negative action** is a MDHHS action to deny an application or to reduce, suspend or terminate a benefit. This includes an increase in a post-eligibility patient-pay amount for MA or an increase in the client pay for a special living arrangement.

CDC Only

Changes reported by clients may affect eligibility for other programs but **may not** affect the current CDC eligibility or benefit. Only changes that would positively affect the client's family contribution (FC), or authorized hours, unless a negative action is required or allowed in the following situations:

- Those listed in the CDC EDG Closure Reasons; in [BAM 220, Case Actions](#) .
- An FC increase tied to a provider change.
- A case correction required due to an incorrect eligibility determination (regardless of client or agency error).

CDC clients are required to report, within 10 calendar days, changes in:

- Group composition/death.
- Out of state residency.
- Providers or child care setting.
- Assets that exceed \$1 million.
- When income exceeds the income eligibility scale for the family size; see [RFT 270, CDC Income Eligibility Scale and Provider Rates](#).

Note: See [Bridges Eligibility Manual BEM 703, CDC Program Requirements](#). Request for Additional Assistance, for policy pertaining to a request for an additional provider, need reason or need hours for an active client during the 12-month continuous eligibility period.

NOTICE OF CASE ACTIONS

All Programs

Upon certification of eligibility results, Bridges automatically notifies the client in writing of positive and negative actions by generating the appropriate notice of case action. The notice of case action is printed and mailed centrally from the consolidated print center.

For FAP Only, see *Actions Not Requiring Notice* in this item.

Exception: Written notice is **not** required to implement a hearing decision or policy hearing authority decision.

See [BAM 600, Hearings](#), if a client disputes a case action.

There are two types of written notice: **adequate** and **timely**.

A notice of case action must specify the following:

- The action(s) being taken by the department.

- The reason(s) for the action.
- The specific manual item which cites the legal base for an action or the regulation or law itself.
- An explanation of the right to request a hearing.
- The conditions under which benefits are continued if a hearing is requested.

Adequate Notice

An adequate notice is a written notice sent to the client at the same time an action takes effect (not pending). Adequate notice is given in the following circumstances:

All Programs

- Approval/denial of an application.
- Increase in benefits.

FIP, RCA, SDA, MA, CDC

- A recipient or his legal guardian or authorized representative requests in writing that the case be closed.
- Factual information confirms a recipient's death.
- It is verified that a recipient has been approved for assistance in another state.
- It is verified that an eligible child, **or in MA**, an eligible group member of any age, has been removed from the home as a result of court action.

FIP, SDA, and FAP Only

An intentional program violation (IPV) disqualifies the only eligible member or reduces/terminates other members' benefits. See the *Disqualification* section in [BAM 720, Intentional Program Violation](#), for notice procedures and forms.

FIP and MA Only

Denial of request for medical transportation.

SDA Only

Case closure due to a member's receipt of Supplemental Security Income.

CDC Only

- The client or provider reports, orally or in writing, that a child is no longer in the care of that provider.
- It is verified that a child member of the program group was voluntarily placed in foster care.
- Information verifies the provider is no longer eligible to receive payments.

MA Only

- Case opening with a deductible or patient-pay amount.
- Decrease in post-eligibility patient-pay amount.
- Recipient removed due to his eligible status in another case.
- Addition of MA coverage on a deductible case.
- Increase in medical benefits.
- At case open with a divestment penalty

FAP Only

- The change was reported in writing and signed by an eligible group member **and** the new benefit level or ineligibility can be determined based **solely** on the written information.

Note: When deleting a member, an application the client files on their own, **or** the updated application of a group they join, is considered a change reported in writing by an eligible member of the former group.

- Reliable information indicates the group will leave the state before the next issuance.
- Changes reported on a MDHHS-1046, Semi-Annual Contact Report.

Timely Notice

All Programs

Timely notice is given for a **negative action** unless policy specifies adequate notice or no notice. See Adequate Notice and, for FAP only, Actions Not Requiring Notice, in this item. A timely notice is mailed at least 11 days before the intended negative action takes effect. The action is pended to provide the client a chance to react to the proposed action.

Actions Not Requiring Notice

FAP Only

A notice of case action is **not** sent in the situations below. The action must take effect no later than the month after the change.

- Reliable information indicates the group left the state.
- Reliable information indicates all members died. Reliable sources generally include a newspaper, friends or relatives of the group, or other agencies.
- Supplementation over multiple months to restore lost benefits is completed; see [BAM 406, Supplemental Food Assistance Benefits](#).
- From a joint FIP/SDA and FAP application, the FAP benefit began first **and** the FAP approval letter indicated the benefit might decrease if FIP/SDA were later approved.
- The FAP benefit varies from month to month within the benefit period due to changes anticipated when the case was certified, **and** the group was so notified at that time.
- Benefits are reduced for failure to repay a FAP overpayment that resulted from IPV ([BAM 720, Intentional Program Violation](#)) or client error ([BAM 715, Client/CDC Provider Violation](#)); see [BAM 725, Collection Actions](#).
- The FAP certification period has expired, and redetermination application was not filed.
- The group voluntarily requests closure in writing.

Child Care Provider Authorization

CDC Only

Bridges generates a DHS-198, Child Development and Care (CDC) Provider Notice, to notify CDC providers when:

- An authorization is added.
- The authorized hours change.
- Closing the CDC eligibility determination groups (EDG).
- The family contribution changes.

A manual DHS-198 must be sent by the specialist when a manual authorization is entered in Bridges.

MASS UPDATES

All Programs

Certain changes result from changes by the federal or state government and involve mass updates of the entire or major portions of the caseload. Central office usually processes most of the affected cases through Bridges mass update and mails notices to client. Local offices are often required to assist in a mass update, as specified in a program policy bulletin.

Mass updates affecting various programs include:

- Annual FAP standards update.
- Retirement, survivors, and disability insurance (RSDI) updates.
- Periodic changes in program benefit amounts.
- Other changes in eligibility factors based on laws or regulations.

STANDARDS OF PROMPTNESS

All Programs

The standard of promptness (SOP) is the maximum time allowed to complete a required case action. Cases should be processed as quickly as possible. The SOP sometimes varies by program.

Change Reported Via Data Matches

FIP, RCA, SDA, CDC and MA

Case actions resulting from changes reported via data matches (BENDEX, SDX, IRS, enumeration, etc.) must be completed within 45 days of receiving the information.

FAP Only

Case actions resulting from changes reported via data matches (BENDEX, SDX, IRS, enumeration, etc.) must be completed within 45 days of receiving the information.

Exception: For simplified reporting groups, the following data matches are acted upon only at semi-annual or redetermination (whichever comes first):

- [Wage Match. \(BAM 802\)](#)
- [IRS Unearned Income Match. \(BAM 803\)](#)
- [IRS Wage and Pension Match. \(BAM 803\)](#)
- [State New Hires Match. \(BAM 807\)](#)
- [National Directory of New Hires Match. \(BAM 813\)](#)
- [Paris Interstate Match. \(BAM 814\)](#)

Exception: For change reporting groups, the following data matches are addressed only at mid-certification or redetermination (whichever comes first):

- [Wage Match. \(BAM 802\)](#)
- [IRS Unearned Income Match. \(BAM 803\)](#)
- [IRS Wage and Pension Match. \(BAM 803\)](#)
- [Paris Interstate Match. \(BAM 814\)](#)

Exception: [For change reporting groups with a state new hires match and/or national directory of new hires match, when to act is determined based on the date of the match and the processing date:](#)

- If the date of the match is less than 60 days from the processing date, the following matches must be addressed:
 - [State New Hires Match. \(BAM 807\)](#)
 - [National Directory of New Hires Match. \(BAM 813\)](#)

- If the date of the match is 60 days or more from the processing date, the following matches are held and addressed at the next mid-certification or redetermination (whichever comes first).
 - [State New Hires Match. \(BAM 807\)](#)
 - [National Directory of New Hires Match. \(BAM 813\)](#)

All Other Reported Changes

FIP, RCA, SDA, CDC and MA

Act on a change reported by means other than a data match within 15 workdays after becoming aware of the change.

FAP Only

Act on a change reported by means other than a data match within 10 days of becoming aware of the change if one or more of the following is true:

- Additional verification is not required to make the change.
- The change has been verified by another program.
- The information is required for the group's reporting status.

If none of the above bullets are true, the change(s) will be held and addressed at the next semi-annual, mid-certification, or redetermination (whichever comes first). Unless a change is reported that conflicts with information used at the time of application, semi-annual, mid-certification or redetermination, indicating the household may have failed to report eligibility information. Then, verification would be requested for all reporting groups.

Benefit Increases: Changes which result in an increase in the household's benefits must be effective no later than the first allotment issued 10 days after the date the change was reported, provided any necessary verification was returned by the due date. A supplemental issuance may be necessary in some cases. If necessary verification is **not** returned by the due date, take appropriate action based on what type of verification was requested. If verification is returned late, the increase must affect the month after verification is returned.

Example: Rich reports and provides proof of a dependent care expense on March 23rd. Act on the change by April 2nd. May's

benefits will be the first month affected because the 10th day after the change is reported falls in the next eligibility month. Affect the April issuance if the action can be completed by March 31st.

Example: Rich is a change reporter and reports a dependent care increase on March 21st but did not supply verification. Verification of his new dependent care expense is requested late, on March 23rd. Rich provides the verification on April 2nd. This change will be effective for April's benefits and a supplement will be needed.

Example: Using the previous example, Rich does not supply the dependent care verification until April 6th. Act on the change by April 16th to affect May's benefits. No supplement is issued for April, due to Rich's failure to return the verification within 10 days.

If verification is required or deemed necessary and the client fails to return the verification within 10 days after the change was reported, but does provide the verification at a later date, act on the change within 10 days after the verification is provided.

Benefit Decreases: If the reported change will decrease the benefits or make the household ineligible, action must be taken, and a notice issued to the client within 10 days of the reported change.

Example: Debra calls on March 22nd and reports a group member left the home which will reduce the group's benefits. Act on the change and issue the benefit decrease notice by April 1st. The change will be effective for May's benefits.

Example: Mary calls on March 19th to report a decrease in her dependent care expense. The specialist send's a VCL requesting verification of the new expense. Even though Mary must be allowed 10 days to return verification of the decreased dependent care expense, act on this change and issue the negative action notice by March 29th. If the verification is not returned within 10 days, begin a second negative action to remove the expense completely.

EFFECTIVE DATE OF CHANGE

All Programs

Bridges evaluates the following dates entered in data collection to determine positive action dates, negative action dates and effective dates:

- Circumstance start/change date.

- Reported on.
- Verification received on.
- Date client became aware.

FIP, RCA, SDA and FAP Only

See Bridges Eligibility Manual (BEM) 505, Prospective Budgeting/Income Change Processing, or policy regarding effective dates for income changes.

FIP, RCA and SDA Only

See [BEM 515 FIP/RCA/SDA Budget](#), for policy regarding effective dates for member adds.

CDC Only

Act on reported changes as soon as possible, but act within the standard of promptness; see STANDARDS OF PROMPTNESS in this item. The day a reported change is acted on is not always the day the change must take effect.

Example: A client had prior pay periods certified for CDC. The client failed to timely report an increase in income that exceeded the income eligibility scale for the family size. If the income is not temporary excess income, rerun eligibility. Bridges will generate zero approved hours or an overpayment. The client will then be denied the pay period after the change occurred for excess income.

Note: Determine if the increase is temporary excess income or is expected to continue; see [BEM 505](#).

Positive Actions can be entered on Bridges to affect current, future, and past CDC pay periods. First determine the positive action date. If the change was reported timely (within 10 calendar days), for example a change in providers, the positive action date is the day the change occurred or is expected to occur. If the change was reported late, the positive action date is the day the change was reported. Positive actions take effect on the positive action date.

Exception: Family contribution decreases, that are not a result of a provider receiving a higher star rating/quality level are positive actions and affect the first CDC pay period that begins on or after the positive action date.

Note: For a new or changed authorization to take effect on the positive action date, begin it the first day of the CDC pay period that contains the positive action date.

Negative Actions: If timely notice is required, the negative action date must be the first workday at least 11 days after the notice was sent, or the date the change is expected to occur if that is later. If adequate or no notice is required, the negative action date is immediate (the day action is taken on the change), but not before the change is expected to occur.

The following negative changes entered on Bridges take effect as follows:

- Family contribution increases tied to a provider change are a negative action and take effect the first CDC pay period that starts on or after the negative action date.

Note: An income eligible child assigned to a 3 star/Enhancing Quality or higher provider will have their FC amount waived. During the 12-month continuous eligibility period a change to a provider with 2 star/Reflecting on Quality or lower rating/quality level (or a change in the currently assigned provider's star rating/quality level) will result in the FC amount no longer being waived. For additional family contribution and star rating/quality level details; see [BEM 706, CDC Payments](#).

- CDC case closures and member removals (for example removing an eligible child) take effect on the negative action date.

FAP Only

For non-income changes, complete the FAP eligibility determination and required case actions in time to affect the benefit month that occurs 10 days after the change is reported. See [BEM 212, Food Assistance Program Group Composition](#), and [BEM 550, FAP Income Budgeting](#), for policy regarding effective dates for member adds. The benefit month **cannot** be earlier than the month of the change.

Example: A \$30 shelter increase reported on May 15th would increase the household's June allotment. If the same increase were reported on May 28, the household's allotment would have to be increased **by** July. (The 10th day following May 28 would be June 7.) However, the first month we **can** affect is June, provided the action on the shelter change is completed by May 31st.

PROCESSING CHANGES

All Programs

Enter all changes in Bridges by changing the affected data elements. Certify the eligibility results in Bridges for all appropriate benefits and benefit periods.

Negative Actions

A **negative action** is identified in Bridges with notice reason(s) in eligibility results. Negative actions include:

- Decrease in program benefits, including case or EDG closure.
- Special living arrangement client pay increase.
- Inactivation of an eligible group member.
- CDC family contribution increases tied to a provider change.
- Change in payment method to restricted payment (no code needed). Termination of a member's medical eligibility (member remains active but **not** medically eligible).
- Medical coverage cancellation or reduction.
- Inactivation resulting in a FAP benefit increase is **not** a FAP negative action.
- Patient-pay amount initiated (**unless** this occurs on the day of case opening).
- Post-eligibility patient-pay amount increase.
- Changing the PET code to a divestment penalty code; see [BEM 405, MA Divestment](#).

FAP Only

Reducing a FAP group's benefits at redetermination is treated as a **positive action** because the change affects the new certification, **not** the current benefit period.

CDC Only

For CDC when a foster child is adopted by the child's current foster parents during the 12-month continuous eligibility period, CDC should remain open until redetermination with no negative action taken on the CDC EDG. Assistance from the Bridges Resource Center (BRC) is required.

During 12-month continuous eligibility, complete a case correction, including those constituting negative actions, when initial eligibility or redetermination was completed in error or when it is discovered that inaccurate information was provided by the applicant.

Notice Reasons**All Programs**

The notice reason(s) in Bridges indicates the reason for the action.

**NEGATIVE ACTION
DATE**

Bridges automatically calculates the negative action effective date. The negative action effective date in Bridges is the day after the timely hearing request date on the Bridges notice of case action.

**Timely Hearing
Request Date**

The timely hearing request date is the last date on which a client can request a hearing and have benefits continued or restored pending the hearing. It is always the day before the negative action is effective.

**Immediate
Negative Actions
(Adequate Notice)**

An immediate negative action occurs when the negative action requires adequate notice based on the eligibility rules in this item. Adequate notice means that the action taken by the department is effective on the date taken.

Exception: For CDC adequate notice means that the action taken by the department is effective on the date of the Circumstance Start/Change Date (CSCD).

**Pended Negative
Actions (Timely
Notice)**

A pended negative action occurs when a negative action requires timely notice based on the eligibility rules in this item. Timely notice means that the action taken by the department is effective at least 12 calendar days following the date of the department's action.

**ACTIONS NOT
ALLOWED BY
LOCAL OFFICES**

Bridges automatically sets all negative action effective dates based on the rules for each program and the date the action is processed in the system. Occasionally there is a need to affect a negative action with less than 12 days' notice (11 days added to the current date). An exception may be requested for the specific program. Follow the procedure for requesting exceptions found in [BEM 100, Introduction](#). The program office will validate the need for the exception and forward the request to the appropriate staff to enter the override in Bridges.

**DELETING A
NEGATIVE ACTION****All Programs**

Negative actions must be deleted from Bridges in some situations.

Hearing Requests

Record the hearing request date and complete all required information on the Hearings Restore Benefits screen in Bridges. Then follow Additional Steps to Delete a Negative Action in this section; see [BAM 600](#).

**Requirement Met
Before Negative
Action Effective
Date**

Enter the information the client provided to meet the requirement that caused the negative action, using the appropriate Bridges screens. Then follow Additional Steps to Delete a Negative Action in this section.

Additional Steps to Delete a Negative Action

Take these additional steps to delete a negative action in Bridges:

- Reactivate the program(s) on the Program Request screen in Bridges.
- Run eligibility and certify the results.

Bridges will automatically recalculate benefits based on the information and dates entered in the system; see *effective date of change* in this item.

BENEFIT SUSPENSION

FIP, RCA, SDA and FAP Only

Benefit suspension means stopping program benefits for one month due to temporary ineligibility when allowed by policy. Document the reason(s) in the case record.

To suspend benefits for one month, check the *Temp Inelig* box on the initial eligibility results screen in Bridges before continuing to the certification screen. Do **not** check the box if ineligibility will continue beyond one month.

This option is not available in Bridges if the previous month's benefits were suspended.

If **timely notice** is required, the date of the first benefit credited must be later than 11 days from the date the MDHHS-176, Benefit Notice, is sent.

FIP, RCA and SDA Only

If suspending cash assistance benefits, notify any shelter vendor(s) for the case that vendor warrants will not be produced for that month. The client is responsible to pay any vendors directly.

CDC MEMBER ADDS

No application is required for a Member Add when adding a child or an adult (P/SP) during the 12-month eligibility period.

When a client reports a new person in the home, determine if any actions must be taken and document the case. **Complete a telephone interview** and inform the head of household that they must report if assets exceed \$1 million and if income exceeds the eligibility limit by family size on the CDC Income Eligibility Scale; see RFT 270.

When adding an **adult** group member, document the request in case comments and enter the following information in Bridges:

- Relationship.
- Citizenship/non-citizen status.
- Absent parent status (if applicable).
- Need reason (if applicable).
- All income.
- Any other information necessary to determine eligibility.

If the adult being added during the 12-month eligibility period does not have a valid need reason, and they are the parent of one or more CDC eligible children, CDC should remain open for the children until the next redetermination. At the next redetermination, both P/SPs must have a valid need reason.

When adding a **child**, inform the client that a new MDHHS-4025, Child Development and Care (CDC) Provider Verification, is required to add a provider assignment for the child and send the client the form. Document the request for CDC in case comments and enter the following additional information in Bridges:

- Citizenship/non-citizen status.
- Absent parent information, if applicable.
- Age exception if the child is 13 through 18 years old.
- Confirm the child meets the immunization requirement.
- The child's income.
- Foster care status (if applicable).
- Joint custody status (if applicable).

If CDC is active and requested for an additional child, and the parent/substitute parents (P/SPs) currently in the home were part of the most recent eligibility determination, changes in income, need reason and hours will not impact CDC eligibility and verifications should **not** be requested for CDC. The new child's authorizations should be based on the most recent CDC eligibility determination.

If CDC is active and requested for an additional child, and that child has a P/SP in the home who was not part of the most recent eligibility determination, the new P/SP must verify all required eligibility factors to make an eligibility decision for the added child.

If the reported changes will result in a negative action, other than those on the CDC EDG Closure Reasons list, document the case and address at the next Redetermination. If reported changes result in a positive action, make the changes, document and certify.

Note: Currently authorized children should not be negatively impacted, except for valid closure reasons. See CDC EDG Closure Reasons in this item.

Example: CDC is open for Child A, and Child A's mother (only P/SP) and her Living Together Partner (LTP) are in the home. The mother and her LTP wish to add a new child-in-common (Child B) to the CDC program. The LTP is a P/SP to Child B, a required program group member, and was not a part of the most recent CDC eligibility decision. Therefore, the LTP must verify all required eligibility factors at member add to authorize CDC for Child B. If the LTP does not have a valid need reason, Child B is not eligible for CDC, and the CDC redetermination would not be extended.

CDC Redetermination Extension: When a child(ren) is added to an active CDC program, the redetermination is to be extended, allowing for a full 12 months of continuous eligibility for the newly added child(ren), which will also extend CDC for any other child(ren) already active in the program.

CDC can be extended twice before completing a redetermination. A redetermination must be completed prior to granting three or more extensions. If a request for a third extension is received prior to the redetermination, a policy exception must be requested. Policy exception requests should be sent to Policy-CDC@michigan.gov.

Upon adding a child to an existing CDC program, the Extend CDC screen will need to be completed by checking the Extend CDC box. This will extend the CDC redetermination date for all active children.

For children who turn age 13 after the CDC redetermination has been extended, Bridges will auto remove them from the CDC program once they turn age 14.

Note: Before adding a provider assignment to a newly added child, obtain a new MDHHS-4025.

Example 1:

In October 2025, a newborn is added to an existing CDC program with three children already approved. The newborn is added to the case four months after the last Redetermination date (June 2025). CDC will be extended for all existing children on the case. CDC is now approved for all the children through October 2026. The 1010 for the case will now go out in September 2026.

Example 2:

CDC was originally approved in November 2024. In June 2025, a newborn is added to an existing CDC program with two other children, ages 10 and 12. The 12-year-old does not require constant care. The 12-year-old's birthday is in October 2025. CDC will continue to be approved for the eldest child until the following Redetermination. CDC will now be approved through June 2026 for all the children.

If an additional extension is not requested prior to the June 2026 redetermination, the eldest child will be removed at redetermination due to being over age 12 and not requiring constant care.

If CDC is extended, and a child is 13 at the time CDC is extended, CDC will automatically end for that child with the pay period prior to the child turning 14 years old or at the next Redetermination, whichever comes first.

Example 3:

A family is approved for CDC for two children and was approved in January 2025. In May 2025, the family accepts a Foster Care child and requests this child is added to their active CDC program. CDC will now be approved through May 2026. In August 2025 the foster child is removed from the home and placed with another family. CDC for the family's other two children will continue to be approved through May 2026.

Example 4:

A family was approved for CDC in January 2025 with two children. In March 2025 a newborn is requested to be added to CDC (1st extension). All three children will now have their

redetermination extended to March 2026. Later in the year, a request to add a niece to the active CDC beginning June 2025 was granted (2nd extension). All four children will now have their redetermination extended to June 2026.

In February 2026 a foster child was requested to be added to the CDC program (3rd extension request). Send a policy exception request to Policy-CDC@michigan.gov.

Note: For Example, #4, if the request to add the foster child came in during the June 2026 redetermination, do not extend CDC but follow the normal redetermination process. If approved, the group's next redetermination is June 2027.

Adding a new member may impact CDC eligibility. If there are changes in eligibility, timely reporting and processing will determine when the change occurs; see Effective Date of Change in this item.

SHORTENING A 24-MONTH FAP BENEFIT PERIOD

FAP Only

Bridges shortens the 24-month benefit period for ongoing groups who have more than 12 months left in their benefit period and either:

- Report having earned income.
- Unearned income (other than RSDI and/or SSI).
- Report an individual joining the group who is not SDV.

Whenever any of the above occur, Bridges does the following:

- Sets the end date to 12 full months from the processing date.
- Issues a DHS-1605 explaining simplified reporting, household income limit and the new shortened benefit period end date.
- Issues a DHS-1045, Simplified Six-Month Review.

For groups whose 24-month benefit period has 12 months or less remaining at the time the change is first reported, Bridges assigns the group to the SR category, but does **not** shorten the benefit period. The current benefit period end date must be retained even though the end date is 12 months or less. If the group remains SR

eligible at redetermination, Bridges assigns a new 12-month benefit period.

Example: On August 7, 2022, Risa reports her husband returned to the group and he receives unemployment income. They are change reporters and have a 24-month benefit period with an end date of May 31, 2023. On August 17, 2022, the specialist processes the change, and the group becomes SR. Bridges issues a DHS-1605 which provides the simplified reporting requirements, and a DHS-1045. The end date remains May 31, 2023, since the group has less than 12 months remaining in their benefit period.

SSI CASE ACTIONS

SSI Openings and Changes

FIP, RCA, SDA and MA Only

Bridges generates tasks that provide SSI data reported by the Social Security Administration (SSA) on the State Data Exchange (SDX) system.

Bridges acts on specific HR-070 information to prevent benefit duplication or mispayment.

SDA Only

Take appropriate action based on a Bridges Task that SSI benefits have started or changed.

Enter amounts from the SSI AMOUNT and SSI ELIG SDX interface fields from the SDX interface to recalculate SDA eligibility and benefits.

Note: Whenever the SSI benefit changes, a task will be generated for SDA cases containing SSI recipients.

FIP Only

Persons **cannot** receive FIP **and** SSI at the same time. Also, central office **cannot** open a manual SSI case for an SSI recipient who is a certified group member in a FIP EDG.

Run EDBC to remove the SSI recipient from the FIP certified group.

MA Only

See [BEM 150, MA For SSI Recipients](#).

FAP Only

Enter the ongoing SSI benefits as unearned income.

**SSI APPLICATION
DENIALS****SSI-Related MA Only**

The SDX reports SSI denials and appeals. See Exhibit III in BEM 260, MA Disability/Blindness, lists the specific codes needed to identify appeals and disability/blindness denials.

Eligibility for MA based on disability or blindness does **not** exist if the SSA disability determination is **final** as defined in [BEM 260](#). Enter appropriate appeal information in Bridges.

If the client is no longer eligible for disability-related MA, Bridges will explore other MA categories. If the client is **not** eligible for any, Bridges will close the MA. If the client qualifies for a category but must meet a deductible, Bridges will close MA based on disability and open an active deductible EDG under the new MA category.

Timely notice of benefit reduction or closure is sent by Bridges.

SSI Terminations**MA Only**

Central office closes SSI MA when SDX indicates SSI benefits are terminated. Bridges sets a redetermination date and continues MA eligibility when SSI stops.

Continue the beneficiary's MA coverage until the redetermination is completed. The redetermination does not need to be completed if the beneficiary's SSI is reactivated in a subsequent SDX batch. In most cases this is a local office responsibility; see [BEM 150, MA for SSI Recipients](#).

DEATH NOTIFICATION

All Programs

A reliable source must verify a recipient's death before action is taken on a case. Reliable sources generally include death notices in newspapers, friends and relatives of the client, and other agencies. The verification source is entered in Bridges for the date of death.

CDC Only

Report all deaths of children while in the care of a child care provider; see [SRM 172, Child/Ward Death Alert Procedures and Time-frames](#), for specific reporting instructions.

EX PARTE REVIEW

MA Only

An ex parte review (see glossary) must begin at least 90 days (when possible) prior to the close of any Medicaid Type of Assistance.

- When the ex parte review shows that a recipient does have eligibility for Medicaid under another category, change the coverage.
- When the ex parte review shows that a recipient may have continuing eligibility under another category, but there is not enough information in the case record to determine continued eligibility, send a verification checklist (including disability determination forms as needed) to proceed with the ex parte review. If the client fails to provide requested verification or if a review of the information provided establishes that the recipient is not eligible under any MA category, send timely notice of Medicaid case closure.
- When the ex parte review suggests there is no potential eligibility under another MA category, send timely notice of Medicaid case closure.

When it is determined that a recipient will no longer meet the eligibility criteria for FIP-related Medicaid, because of an actual or anticipated change, determine whether the recipient has indicated

or demonstrated a disability (see glossary) as part of the ex parte review (see glossary).

- If the ex parte review reveals the recipient has already been determined disabled for purposes of qualifying for a disability-based Medicaid eligibility category, by the SSA or the department, and the determination is still valid, continue the recipient's Medicaid eligibility under the disability-based Medicaid category for which the recipient is otherwise eligible.
- If, during the ex parte review it is determined a recipient has indicated or demonstrated a disability, request from the recipient additional information needed to proceed with a disability determination. Pending the determination, continue the recipient's Medicaid.
 - If the recipient fails to provide the information requested after being given a reasonable opportunity to do so, and eligibility under all other categories has been ruled out, send timely notice of Medicaid case closure indicating the person is not eligible for disability based Medicaid as well as FIP related categories.
 - If, following the disability determination process, the recipient is determined to not be disabled for purposes of qualifying for disability-based Medicaid categories and eligibility under all other categories has been ruled out, send timely notice of Medicaid case closure indicating the person is not eligible for disability-based Medicaid as well as FIP-related categories.
 - If, following the disability determination process, the recipient is determined disabled for purposes of qualifying for disability-based Medicaid categories, continue the recipient's Medicaid under the disability-based Medicaid category for which the recipient is otherwise eligible.

Medicaid coverage will continue until the client no longer meets the eligibility requirements for any other Medicaid TOA.

CASE CLOSURE

All Programs (Except SER)

When a recipient is no longer eligible or requests case closure, do **all** of the following:

- Enter all appropriate information, including verification sources, in Bridges to document ineligibility, or the client's request that the program(s) be closed.
- Run EDBC in Bridges and certify the eligibility results.
- Make appropriate referrals for other programs or services.

CDC EDG CLOSURE REASONS

The following are valid reasons to end CDC benefits during the 12-month continuous eligibility period:

- Client requests closure.
- Substantiated welfare fraud or IPV sanction.
- Loss of Michigan residency.
- Income exceeds the eligibility scale in [RFT 270](#), and the income increase is not Temporary Excess Income; see [BEM 505](#).
- Only authorized child ages out or leaves the household; see [BEM 240, Age](#), for age requirements.
- Only P/SP on the case leaves the household (no longer resides with the authorized child).
- Minor parent, active on legal guardian's case, turns 18.
- Assets exceed \$1 million.
- A case correction that results in closure.

CASE ACTION NOTICE FORMS

FIP, SDA, RCA, CDC and FAP

Bridges sends the appropriate notice based on the case action taken.

Notices are sent to Spanish or Arabic-speaking clients using a Spanish-Arabic form, if available, and if the client has indicated Spanish or Arabic as the household's written language.

APPLICATION APPROVALS/ DENIALS

A notice must be generated manually in those situations in which Bridges is not able to generate a notice, as identified in this item.

All Programs

The following notices are used to notify the client of an application approval or denial.

The DHS-1150, Application Eligibility Notice, is generated for withdrawals entered on the Program Request screen prior to data collection/intake.

The DHS-1605, Notice of Case Action, is generated by Bridges for automated eligibility determinations.

MA Only

A DHS-114, Deductible Notice, is generated when MA is approved with a deductible.

A DHS-1606, Health Coverage Notice, is generated when Medicaid is approved or denied.

See [BEM 402, Special MA Asset Rules](#), for policy on notices to send regarding asset transfer information and the results of an initial asset assessment.

POSITIVE CHANGES

All Programs

Bridges automatically generates a DHS-1605, Notice of Case Action, to notify the client of the results of the Bridges automated eligibility determination. The results for all programs are included on a combined notice.

NEGATIVE CHANGES AND CASE CLOSURES

All Programs

Bridges generates a combined DHS-1605, Notice of Case Action, for all programs. A DHS-1606, Health Coverage Notice, is

generated for Medicaid. Other notices are either generated by Bridges or must be manually completed and sent in the specific circumstances listed below.

FIP, RCA, SDA and FAP Only

Bridges generates the following notices when a claim is created:

- DHS-4357, Client Notice of Disqualification and/or Recoupment.

Note: The DHS-4357 is only generated by the Overpayment Establishment Analyst.

- DHS-4358, Notice of Agency or Client Error Overissuance and Recoupment Action.

FIP and MA Only

Send a DHS-301, Medical Transportation Notice, if a request for medical transportation is denied.

MA EXCEPTIONS UNIT

Certain Bridges transactions must be processed through the Exceptions Unit in MSA. The MA exceptions unit mailbox is MDHHS-EXCEPTIONS@michigan.gov.

The Exceptions Unit Mailbox will accept and assist the Specialist with the following requests:

- Correcting Begin/End dates for PETs beginning with MIC, ING, and EXM.
- Correcting PETs beginning with ICO (if the provider ID is a LTC facility instead of ICO plan provider ID).
- Patient Pay Amount (PPA) changes.
- **Specialist must include the following information in the email request:**
 - Beneficiary name.
 - Beneficiary ID.
 - Beneficiary case number.
 - Description of what needs to be updated in Bridges and why.

- Local office staff may need to generate correspondence to support the exception request such as for an increase in a PPA.

Security codes are no longer needed. Please allow up to 2 business days for the request to be completed.
