O-391-DSNAP DSNAP INELIGIBILITY

Regular SNAP recipients cannot receive DSNAP benefits for the same benefit month. If other household members are determined eligible for DSNAP benefits, household members currently receiving regular SNAP benefits (inclusion code 01 on LAMI) must be excluded from the DSNAP certification.

DSNAP recipients cannot receive regular SNAP benefits for the same benefit month. If a DSNAP recipient applies for and is otherwise eligible for regular SNAP benefits, he can be certified for regular SNAP benefits effective the month after the DSNAP benefit month.

EXAMPLE: The DSNAP benefit period is August 15 through September 14. The DSNAP benefit month is August. The household applied for and received DSNAP benefits. The household is not eligible for regular SNAP benefits for August but could be eligible for regular SNAP benefits for September.

O-392-DSNAP REPLACEMENT BENEFITS

In some disasters, regular SNAP replacement benefits may be issued to households in disaster-affected geographic areas. Depending upon the severity of the disaster, the time of the month in which it occurs, and FNS approval, these replacement benefits may be issued automatically.

Further guidance on this process will be issued at the time of each disaster.

O-393-DSNAP SUPPLEMENTS

In some disasters and with FNS approval, supplements are provided to regular SNAP households in order to bring the household's SNAP monthly benefits up to the maximum allotment for its household size.

Further guidance on this process will be issued at the time of each disaster.
