I. STATEMENT OF POLICY

Verification requirements are eased during a disaster to reduce administrative burdens and to reflect the reality that households and staff may not have access to usual verification sources.

Some eligibility factors must be verified, some should be verified when possible, and some should be verified if questionable.

O-341-DSNAP Mandatory Verification

The identity of the person interviewed must be verified. If an authorized representative is interviewed on behalf of the household, the identity of both the authorized representative and the head of household must be verified.

O-342-DSNAP Verification “When Possible”

Residency of the household and the loss or inaccessibility of income/liquid resources should be verified when possible. * OMV or LA Wallet may be used to verify residency.

Refer to Chapter 4, [B-921-DSNAP](#) for information regarding the verification of residency.

To verify the loss or inaccessibility of income/liquid resources, use the best information available at the time of the interview, such as a list of banks, financial institutions, or places of employment that are closed for business due to the disaster.

O-343-DSNAP Verification “If Questionable”

Household composition and food loss should be verified if questionable.

Refer to Chapter 4, [C-1122-5-SNAP](#) for information regarding the verification of questionable household composition.

To verify food loss, use the best information available at the time of the interview, such as documentation from power companies indicating sites and duration of power outages.
