Summary:

The new Cost-of-Living Adjustments (COLA) and Standard Utility Allowances (SUA) utilized in the SNAP program effective FFY2026 (10/01/2025 through 09/30/2026) have been released for the SNAP program by the Food and Nutrition Services (FNS). The new standards are in ONE and will be applied to all SNAP determinations for October 2025 or later. There was a mass update run on September 6, 2025, on all active SNAP cases to ensure the new standards are used for Eligibility Determination Groups (EDGs) in October and moving forward.

To support this change, the new standards will be reflected in the ODHS [5530](#) and Oregon Administrative Rules (OARs) [461-155-0180](#), [461-155-0190](#), [461-160-0420](#), and [461-160-0430](#). In addition, the online [SNAP Calculator](#) (staff access only), and

the online [SNAP Benefits Estimator](#) (available to the public), will be updated with the new figures.

Because this is considered a mass change, decision notices will not be sent for ongoing cases. A media release will be distributed to announce this change, per OAR [461-175-0250](#)(2) and federal regulations.

Note: The FUA is used to calculate the community spouse housing allowance for certain married individuals receiving OSIPM and long-term services and supports (LTSS). The LUA is used to calculate the Accommodation Allowance special needs payment for temporary absence from the home. See details in the Non-MAGI Medical Update section below.

Non-MAGI Medical Update

The FUA is used to calculate the community spouse housing allowance, which can potentially increase the Community Spouse Income Allowance and reduce the client liability. A ONE mass update was completed on 127 affected medical cases over the

weekend of 09/06. A total of 123 cases were successfully updated for October and ongoing. The ONE mass update process failed for 4 cases - 4 cases failed as they had outstanding RFIs or were in In Progress status. For the failed cases, the new FUA standard will be applied when the case is manually rerun by a worker.

If there is a pending Community Spouse Resource Allowance (CSRA), it must be re-computed to update the FUA deduction and re-determine the income shortfall.

4. Community Spouse Resource Allowance	
a. Divide combined resources by 2	\$117872.17
b. Minimum community spouse resource allowance	\$31584.00
c. Maximum community spouse resource allowance	\$157920.00
d. Court-Ordered Amount	\$0.00
e. Single Premium Annuity Amount	\$0.00
f. Calculated community spouse resource allowance	\$117872.17
5. Status	Pending
6. Resource Assessment Date	07/18/2025

The LUA is used to calculate the Accommodation Allowance special needs payment for temporary absence from the home under OAR 461-155-0660(1)(c). This update will result in an increase of \$11 for that payment. Payments for the month of October 2025 and later should be updated in the MRP screen to reflect the additional \$11.00. Refer to the [Program Payments and Supports](#) EG for instructions on updating payments. For information on the specific eligibility factors for MRP's, see OPEN Chapter 2 Section 11 for eligibility details.

APD 450 Form

A request was sent to update the APD 450 on the Forms Server effective 10/1/25, but until the update is completed, if a 450 needs to be completed or sent outside of ONE, you can use the [APD 450](#) Worksheet found on [Non-MAGI Financial Eligibility Staff Tools](#) under [Worker Guides and Tools](#).
